THE ALADDIN HOUSE AT A GLANCE

Foundation timbers cut to fit.
Joists, studding, rafters, and ceiling joists all accurately cut to fit.
Sheathing lumber for all outside walls cut to fit.
Bevel siding, every single piece guaranteed to be cut and to fit accurately.
Outside finishing lumber, all mitered.
Flooring, cut to fit. Roof sheathing, cut to fit.
Porch timbers, joists, flooring, columns, railing and posts, moulding, roof sheathing and roofing, all and every piece cut to fit except porch rail, uncut.
Extra Star-A-Star Cedar shingles or prepared roofing.
Steps for front and back, cut and shaped to fit.
Doors for all openings, mortised, and with frame and trim inside and out. Windows and frame, sash, with glass in place, and trim inside and out.
Moulded base board for inside rooms, not cut to fit.
Weather moulding for trimming all outside doors and windows, cut to fit. Crown mould, etc.
Stairways for all two-story houses cut to fit.
All hardware. Mortise locks, knobs and hinges, tin flashing.
Nails of proper size for entire house.
Paint for two coats outside and inside (any color), shellac, putty, oils, and varnishes.
Plaster board for lining entire house, or lath and plaster.
Instructions and illustrations for doing all the work.

Compare the above items with any lists of materials furnished for other so-called complete houses.

(Aladdin houses are always shipped under the freight classification of lumber with the L. C. L. material listed under their respective classifications.)

The floor plan of any house in this catalog will be reversed without extra charge.

TERMS

Twenty-five per cent. cash with order, balance C. O. D. This is not meant as a reflection on your financial standing, but is an invariable rule, and we will not sell houses on any other terms. A discount of 5% is allowed from these prices where full amount is sent with order. For your convenience, we have shown the list price and the net price with each house.

An Illustration: Price of house, $1,000, 25% cash with order—$250, balance $750 C. O. D., or 5% discount for sending full amount—5%, $50 less $1,000—$950, if sent with order.

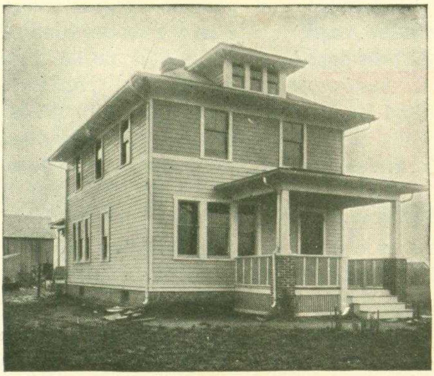
THE ALADDIN PLAN

THIS IS THE NINTH YEAR OF ALADDIN SUCCESS

ALADDIN Houses — the Aladdin System of Construction — may be new to *you*, but the system was planned and put in operation nine years ago. Its merit, its wonderful simplicity, was immediately recognized by the American public. The result is that each year the history of the business shows a doubling and trebling in the volume and number of houses sold. *You* know that this wonderful growth would be impossible for any manufacturing institution, or any business house, unless customers became friends — unless real *service* was rendered — honest value, square business methods, and integrity prevailed.

INTEGRITY OF THE ALADDIN POLICY

Integrity means *moral soundness;* it means *honesty;* it means *freedom from corrupting influence or practice;* it means *strictness in the fulfillment of contracts, uprightness, square dealing.* The Aladdin policy of doing business endeavors to live up to the strictest meaning of *Integrity.* The customer must be well served — must be satisfied — must be pleased — *must be a friend.* You, who read this are entitled to know the truth of the above statement. Well, then, demand of us that proof in whatever way you wish. Shall we give you bankers, congressmen, postmasters, city, State, or National Government officials, or, better than all, shall we refer you to customers who have tested our integrity, customers in your own neighborhood? The proof is yours for the asking.



THE ALADDIN SYSTEM OF CONSTRUCTION IS BUILT ON THIS PRINCIPLE

Modern power-driven machines can do BETTER *work at a lower cost than hand labor. Then every bit of work that* CAN *be done by machines* SHOULD *be so done.* The steel worker with a little hack-saw trying to cut to fit the steel girders of the modern skyscraper would be no more out of place than the modern carpenter cutting sills, joists, and rafters. The skyscraper framework is cut to fit by machines in the steel mills, marked and numbered ready for erection. The lumber in the Aladdin house is cut to fit by machines in the Aladdin mills, marked and numbered ready for erection. The steel system is twenty years old — the Aladdin system nine years old.

DIRECT FROM THE FOREST TO THE HOME

Stop and think what that means — "direct from the forest to the home." It means that you are buying your house at the same price it costs us here — right where the timber grows — to build a house. It means that your house costs you no more than if you could go direct to a mill at the edge of the forest and buy the timber and lumber. It means that you are really doing that very thing, buying it from the mill at the edge of the forest. It means that you are not paying a profit to the big jobber, a profit to the big wholesaler, and a profit to the local lumber dealer at your home, and on top of all that the freight for shipping the lumber to the several places where each does business. The house is shipped to you "direct from the forest to the home." Another thing, each of the above lumber dealers sells on credit. They all add from 5% to 10% to make up for bad accounts — losses which are charged up in your bill. We sell for cash only — we have no bad accounts, and are, therefore, not obliged to take from the man who pays to make up for the man who doesn't pay.

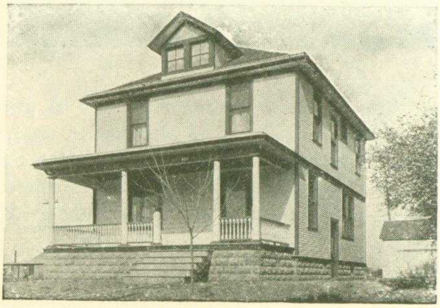
Each price of each house in this catalog pays for the complete house.

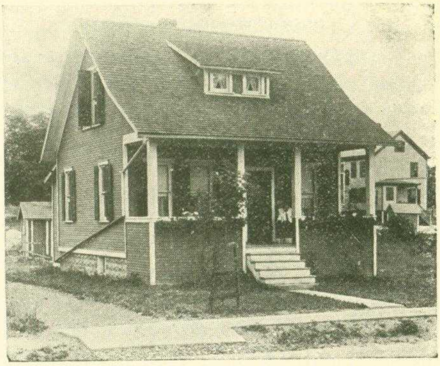
WHAT YOU GET WHEN YOU BUY AN ALADDIN HOUSE

A complete house means all lumber cut to fit accurately for the foundation timber, the joists, studding, and rafters, ceiling joists, sheathing for outside walls, the siding, the flooring: the porch timbers, joists, flooring, columns, railing, steps; the roofing or shingles, roof sheathing; doors, half-glass for outside and paneled for all inside openings; windows, with glass in place; window sash, inside and outside window trim and inside and outside door trim; moulded base board for all inside rooms, weather moulding for trimming all outside doors and windows, crown mould; all hardware mortised locks for all doors; handsome burnished art brass locks and hinges for doors; nails for entire house; paint for two coats inside and outside; oils, varnishes, shellac, putty, and plaster board or lath and plaster for lining entire house inside; plasto-filler. Complete instructions.

THE LUMBER WE USE

Every piece of framing and sheathing lumber in every Aladdin house has been carefully selected from the highest grade of Huron Pine, and clear Yellow Pine is used for all inside finish at the Bay City mills. From our Florida, Missouri, and Texas mills we use Yellow Pine. From our Oregon mill we ship all material in fir. It is carefully inspected by experienced men, and if not up to a high standard is not used. This is an extremely important point and you should consider it carefully. Our facilities for buying high grades are unequaled by any manufacturer of lumber in the country. This means much to the purchaser — to know the quality of materials used — to know that the lumber and tim-





ber are the best; that it is well seasoned, sound, and of first quality throughout. All the interior finish, doors, etc., are put through three separate sanding machines, making a beautiful finish.

WASTE ELIMINATED

People have not yet learned the first principles of economy in house construction. In buying lumber in the usual way you pay for about 18% more material than is used — 18% simply wasted, and, at the very least, you pay for 50% more time and labor than necessary. The architect, in designing a house, seldom considers the subject of cutting material to waste. He lays out the dimensions of the house, places windows, doors, etc., without any thought of how the material will cut. The contractor orders so many thousand feet of siding, of flooring, of 2 x 4, of 2 x 6, etc., without any thought as to the utilization of mill-run lengths. You, of course, know that sawmills cut logs in certain lengths, 12 feet, 16 feet, 20 feet, and it comes through the planing mill in those same lengths. It also comes to the contractor in the same lengths. When the carpenter cuts the siding to fit between two windows, the windows may be 10 feet 1 inch apart. He has to take 14 pieces of siding each 12 feet long and cut each one of them 10 feet 1 inch, wasting 1 foot 11 inches, or about 18% of good lumber absolutely wasted.

This waste is eliminated by the Aladdin designers and the Aladdin system.

ALADDIN PLASTER BOARD OR LATH AND PLASTER —YOUR CHOICE

Aladdin plaster board is the greatest single achievement in the builders' craft in the last generation.

Aladdin plaster board makes a perfect wall; it is easily and quickly put on; its remarkable construction gives absolute protection against extremes in weather; it is positively fireproof; it deadens sound.

In actual, carefully conducted, comparative tests a house lined with Aladdin plaster board requires 18% less coal to keep it at a temperature of 70 degrees than a house of identical size and construction, but which had the usual lath and plaster inside walls.

The above test gave definite proof of the superiority of Aladdin plaster board over lath and plaster.

It will not crack with age, nor loosen from dampness, as will the ordinary plaster.

It comes in sheets 32 x 36 inches in size and is nailed directly to the studding. The plaster alone in Aladdin plaster board is equal in warmth to ordinary plaster, while the four layers of wool felt are more than equal in protection to inch lumber sheathing and building paper combined.

We also furnish a special Plasto-filler, which when mixed with water is used to fill all joints of the plaster board, giving a smooth, perfect wall, upon which you paper direct or use kalsomine, or, as we

sometimes recommend, you can put a putty coat or hard-plaster finish directly onto the board.

We will furnish either lath and plaster or plaster board, whichever is specified by customer.

PAINTING

With every Aladdin house, paint of any color, for two coats inside and outside is furnished. You will be sent, on request, our large color card of many beautiful colors. You may select as many different colors as you wish to choose for body, trimmings, porch floor, porch ceiling, window sash, etc., and you may have either paint, oil and varnish, or stain and varnish, for the interior finish. Shellac and putty are also included with the paint.

"HUNTING FOR PIECES"—CONTRACTOR

Of course, the Aladdin Readi-Cut System receives adverse criticism from some contractors, lumber dealers, and others. This criticism comes chiefly from those who have had no experience with or knowledge of Aladdin houses. Self-interest, here prompted by loss of profit, begets the antagonism.

One of the most amusing remarks made is that the builder of an Aladdin house will lose enough time hunting out his material and finding the right piece as he will save by the Readi-Cut System. Of course, this remark on the face of it is an admission that time is saved by the Aladdin System. However, any thought about time lost in hunting for pieces is immediately dispelled when one sees the simple system of laying out that accompany the instructions for every house.

ABOUT FREIGHT

One of the big advantages in buying an Aladdin house is the big amount you save on the item of freight alone. Your local dealer very rarely buys his lumber from the forest. He gets it shipped to him from his wholesaler at some near-by distributing point. The wholesaler usually gets it from some other middleman who gets it from the sawmill. Every time the lumber is moved in its zigzag course through the middlemen, the freight charges pile up and your local dealer must add them all into the price you pay. When your Aladdin house reaches you the freight is the very lowest that is possible to move the goods to your station. It reaches you in a straight line from the forest. We use great care in quoting the freight and great care in routing it the most direct way. It costs no more to pay the freight when your house reaches you than to send us the money with which to prepay it.

MASONRY

Of course, all excavation and masonry work must be done on the ground. No money would be saved by including stone or brick or concrete, for every section of the country produces this material and prices vary but little. We furnish you with the foundation plan and will give you figures on the amount of material required for whatever kind of foundation, or chimney, material you decide to use — concrete, stone, or brick.

SHORT STATEMENTS OF FACT

The North American Construction Company originated the Readi-Cut system of house construction.

An Aladdin house is exactly like any other well-constructed house when it is erected. It cannot be taken apart except as you would tear apart any good house.

A saw is practically unnecessary in the erection of one of our houses. We do the measuring, sawing, and fitting in our mills, by automatic machinery and best skilled labor.

Our mills are situated right in the heart of the great timber lands of Michigan, Florida, Texas, Oregon, Missouri.

When erected, an Aladdin house will last for several generations, as long as any other well-constructed house.

Aladdin houses are the only Readi-Cut houses manufactured to-day.

Aladdin houses are designed so that mill-run lengths are used almost throughout. Using mill-run lengths makes unnecessary the cutting to waste of good lumber. We reduce waste in everything down to less than 2%.

Skilled labor is practically unnecessary in the erection and completion of any but the largest Aladdin houses — because we supply the skilled labor in our mills, preparing the entire house for you to fit and nail together in a few days.

You pay but one profit on all the material.

You know what your complete house will cost. Everything is included in the price stated in this catalog and in specifications.

You know exactly what your completed house will look like. We show you photographs of your house, inside and outside, floor plans, furnish complete specifications.

You save several months' time, for we usually ship your house promptly upon receipt of your order. It can be erected in one-third the usual time.

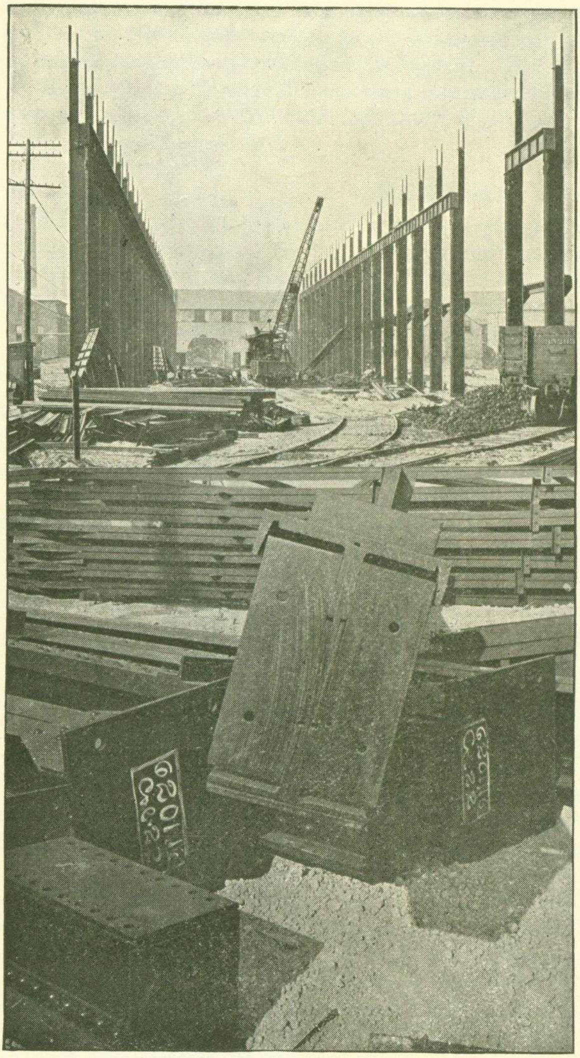
You can do all the work yourself, easily, for we furnish such complete instructions and illustrations that you will need practically no assistance from skilled labor in any part of the work.

Or you can hire an ordinary carpenter to do the work by the day.

You get the finest grade of material throughout the entire house at a less price for the completed house than you can buy through any other source.

REMEMBER THIS

Other lumber concerns — who sell direct to consumer, sometimes infer that their houses are furnished with material *practically* cut to length. We know of no concern in the world, but ourselves, whose material is *cut-to-fit* — or whose material comes to you in any way different from what you would secure from any ordinary lumber yard.



Readi-Cut System of Construction

Aladdin houses are the only Readi-Cut houses on the market to-day. Please bear this fact in mind.

CAN YOU THINK OF A FRIEND WHO EXPECTS TO BUILD?

If you can, won't you send us his name, so we can mail him a copy of this catalog. In the circle of your acquaintance there should be several friends who ought to have one of our books. We will appreciate your service very much.

THE READI-CUT SYSTEM

Here is a striking illustration of the Readi-Cut system of construction successfully used for twenty years in steel-building construction. Note the "studding" for the two side walls, all in position with the "joist hanger" placed. These studs are about thirty feet high. In the foreground are shown some of the rafters, with the marks and numbers indicating their respective positions — "6201-16-Col-22." There is no fitting or cutting on the ground. The sawing, measuring, and fitting were done in the steel mills in Pittsburgh. How can they do this work? Why, the structural engineers know how. It's their particular business. It's their life-work. So it is with Aladdin houses. The same *principles* govern each job. *It's the same system.*

THE WEDGE

A Monthly Magazine for Home Builders

Full of interesting reading and pictures. Sent to any address for one year for 25 cents, stamps or coin.

Summer Cottages and Garages

are illustrated and described on pages 92 and 93

FAMOUS BOARD OF SEVEN

MASTER DESIGNERS, BUILDERS, AND MANUFACTURERS

BEFORE this Board of Seven comes every Aladdin house for the acid test of perfection. No detail escapes the keen and searching analysis of these experts. The designer must prove his plans to the complete satisfaction of, First, the Master Designer, for accuracy; Second, the Master Builders, for practicability, strength, and structural harmony; Third, Factory Experts, for elimination of waste, standardization of lengths, and economy of costs. Unless the cost of these high-priced men's time could be spread over a hundred or more houses of each design it would be prohibitive. No other organization can afford to subject each house design to this searching and costly inspection.

EIGHTEEN FEET OF LUMBER FROM A FOURTEEN-FOOT BOARD

To eliminate waste by scientific planning, designing, and cutting of lumber is to save *your* money from the waste pile.

You will more readily appreciate how your pocketbook is hurt by a concrete example of what this scientific cutting of lumber does.

For instance, note Figure 2 of the accompanying drawing. It shows how the Aladdin system of cutting stretches a 14-foot board into 18 feet, or rather by contrast with the contractor's system, it shows how the contractor wastes four feet of lumber on an 18-foot board.

This cutting schedule of figure 2 is taken from the sheathing in the gable of one of our Aladdin houses. Figure 1 shows how the contractor cuts the same material.

Perhaps you can better appreciate now why Aladdin prices cannot possibly be approached by others.

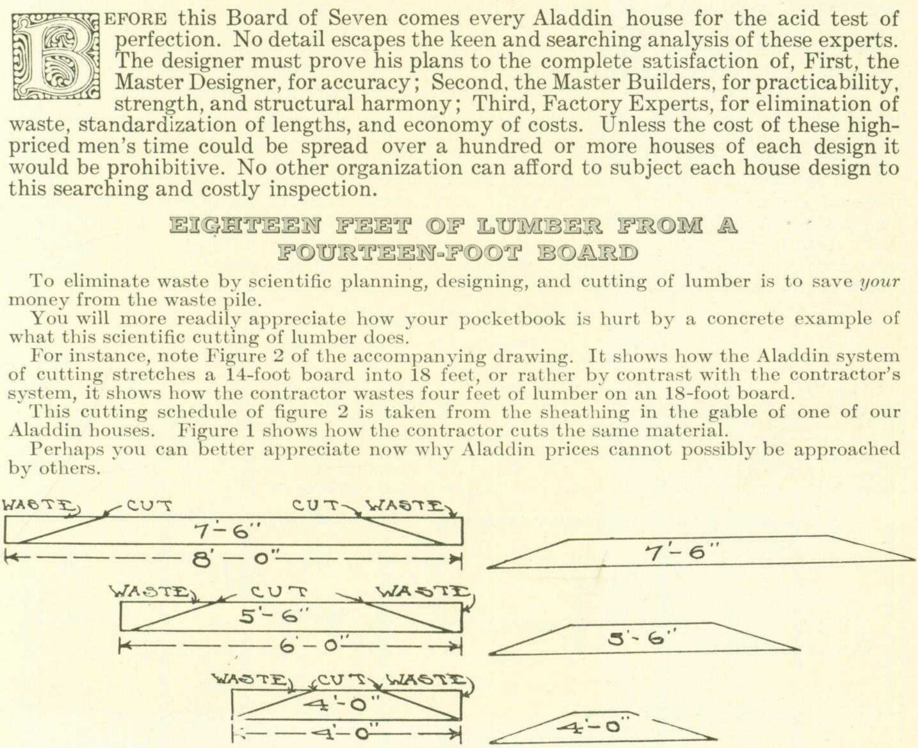


FIGURE 1

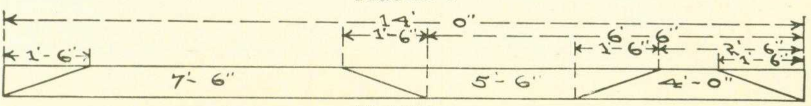

FIGURE 2

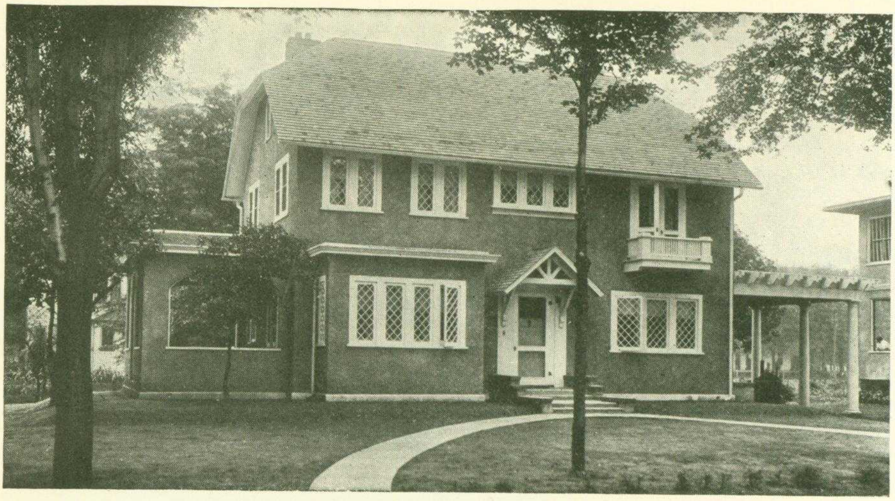

THE BRENTWOOD

This most charming dwelling has a host of admirers. Its individuality is apparent in many ways. The broken roof, second story balcony, hooded front entrance, semi-enclosed porch, pergola porte cochere with French doors leading to dining room, casement windows, and full attic, form a delightfully attractive whole. The house will be furnished with either siding, shingles, or stucco exterior. The bay window projects three feet and is ten feet wide. The pergola at the side is furnished with tin roof, giving protection against snow and rain. This pergola can be furnished with floor, giving a side veranda instead of porte cochere.

Note the sleeping room leading from sitting or dressing room on second floor. This gives all the advantages of the sleeping porch, with none of its inconveniences, this sleeping room has four windows. Linen closet is arranged in hall, a very large closet from the sitting room, and each bed room has a closet. The hall, both first and second story, is commodious, while a stairway of pure Colonial type is furnished. Built-in buffet in dining room affords room for dishes, linen, and silver.

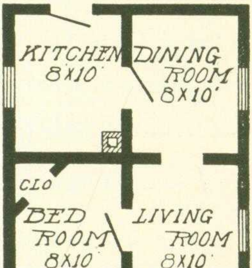
THE DELTA

MANY a man of moderate means would like to own his own little home, but has not got the money, from $500 to $800, to buy a cottage already built or to have it built by carpenters for him. To all such, the Aladdin Readi-cut house is just the thing, because it can be built by themselves at simply a cost of their own time, plus our price for all the material, or can have it nailed together under their own supervision by unskilled labor. Either course will save several hundred dollars. We guarantee all Aladdin houses to be warm, strong, durable, and modern in design — as much so as any house built by usual methods, and will last just as long. Blinds and steps not included.



Floor Plan, The Delta.
16 x 26 ft.

The Delta is a cozy little four-room house, like any other house in this catalog except in size. Size 20 x 30 ft. has four 10 x 12 ft. rooms.

SPECIFICATIONS

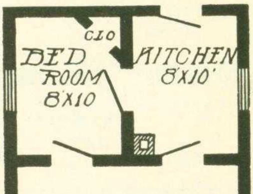
Size, 16 x 26 ft. Price, $304. Cash Discount, 5%. Net Price, $288.80. See Terms.

Size, 20 x 30 ft. Price, $384. Cash Discount, 5%. Net Price, $364.80. See Terms.

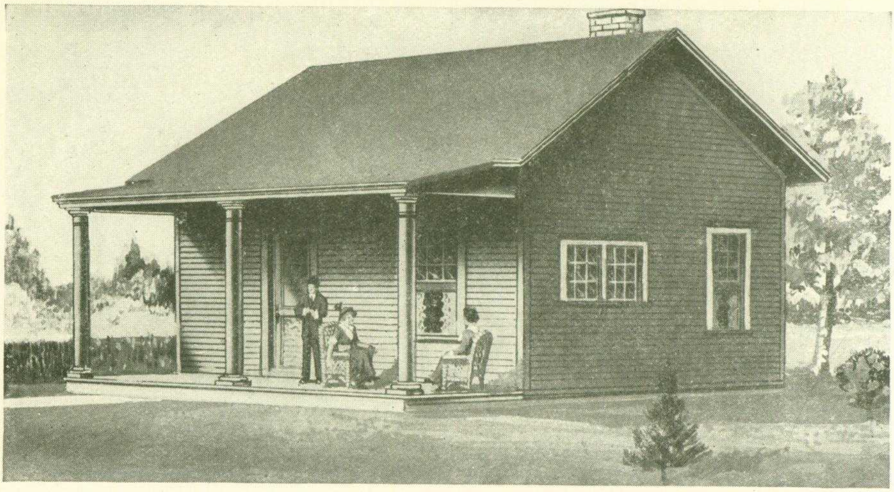
All lumber selected Yellow Pine and Huron Pine.
All ceilings square, not hipped.
Joists, 2 x 6 in.
Studding, rafters, and ceiling joists, 2x4 in.
Sheathing lumber. Bevel siding.
Flooring, 1-inch matched, 3 inches wide.
Roof, 1-inch lumber, overlaid with best prepared roofing or shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Windows, sash, 30 x 28 in., two sliding sash, glass double strength.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass.
Porch colmns, 5 inches.
Hardware, locks, hinges, knobs, nails, paint for two coats inside and outside.

THE CARSON

Same as The Delta, except it has large 10 x 16 ft. room in front.
Size, 16 x 26 ft. Price, $296. Cash Discount, 5%. Net Price, $281.20. See Terms.
Size, 20 x 30 ft., has one 20 x 12 ft. room and two 10 x 12 ft. rooms.
Size, 20 x 30 ft. Price, $370. Cash Discount, 5%. Net Price, $351.50. See Terms.



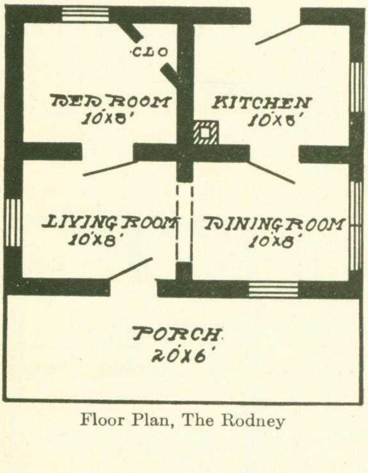
The Carson. 16 x 26 ft.



THE RODNEY

FOUR rooms, a 20 x 6 ft. porch, double casement window in dining room, and generally of harmonious design—these are the special features of The Rodney. It is a particularly good seller and always gives the highest pleasure to its owners. Whenever another room or two is desired it can be added to the rear at very slight effort and expense. Size, 24 x 26 ft., has four 10 x 12 ft. rooms.

The Rodney is well lighted and ventilated. Note the direct line of openings formed by front window, rear door, and the door between dining room and kitchen.



Floor Plan, The Rodney

SPECIFICATIONS

Size, 20 x 22 ft. Price, $334. Cash Discount, 5%.

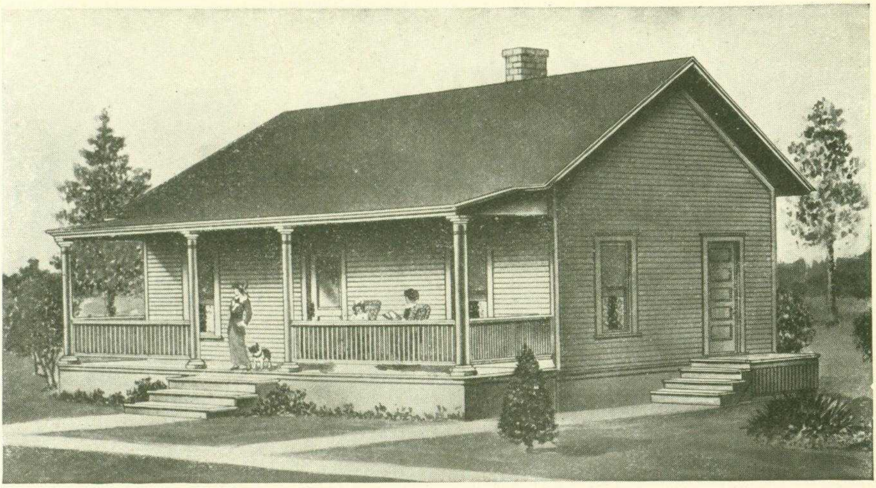
Size, 24 x 26 ft. Price, $390. Cash Discount, 5%.
Net Price, $370.50. See Terms.

All lumber selected Yellow Pine and Huron Pine.
Height of ceilings, 8 ft. All ceilings square, not hipped.
Joists, 2 x 6 in.
Studding and rafters, 2 x 4 in.
Joists, studding, and ceiling joists placed every 16 inches.
Flooring, 1-inch matched, 3 inches wide.
Sheathing lumber. Bevel siding.
Roof, 1-inch lumber, overlaid with best prepared roofing or shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Windows, sash, 30 x 28 in., two sliding sash, glass double strength.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass.
Porch columns, 5 inches.
Hardware, locks, hinges, knobs, nails, paint for two coats inside and outside. Steps not included.

I know positively by experience how much money may be saved by your method, also what splendid quality is used of everything.

Will try and induce all prospective builders of homes to buy an Aladdin house. I will endeavor to do my best for your firm, for I know it to be exactly as represented in all things. I am sincere in my praise of your method.

LAURA E. CASTLE,
Ripley, N. Y.



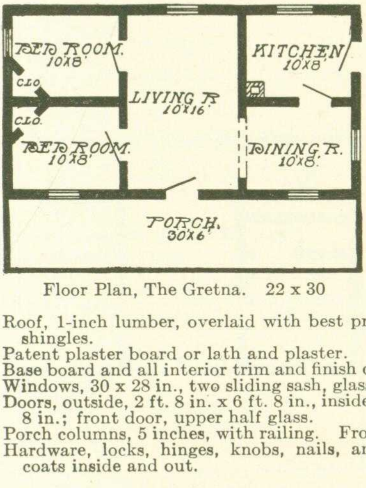
THE GRETNA

THE Gretna has been the most popular of all our designs — the demand for it is constant. This is so because of its particularly attractive appearance and its general convenience. It is particularly desirable for the country, where ground space is not so valuable in frontage, for it is thirty feet long. Its long porch, attractive glazed front door, large central living room, two bed rooms, both placed on one side of house, and dining room and kitchen on the other, make it one of the most conveniently arranged homes imaginable. It is exceptionally well designed for strength and warmth, and when erected will last as long as any wooden structure ever built. As in all other houses, every piece of lumber in entire house is dressed on four sides, paneled doors are supplied for all rooms, flooring all matched, porch roof supported by handsome turned columns. You may have your option of either floor plan shown below at same price.

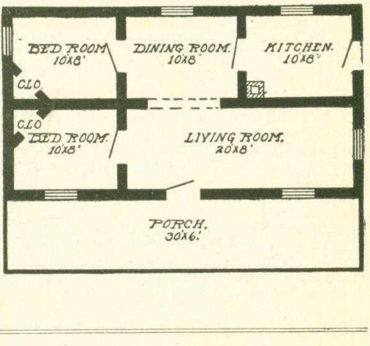
SPECIFICATIONS

Size, 22 x 30 ft. Price, $421. Cash Discount, 5%.
Net Price, $399.95. See Terms.

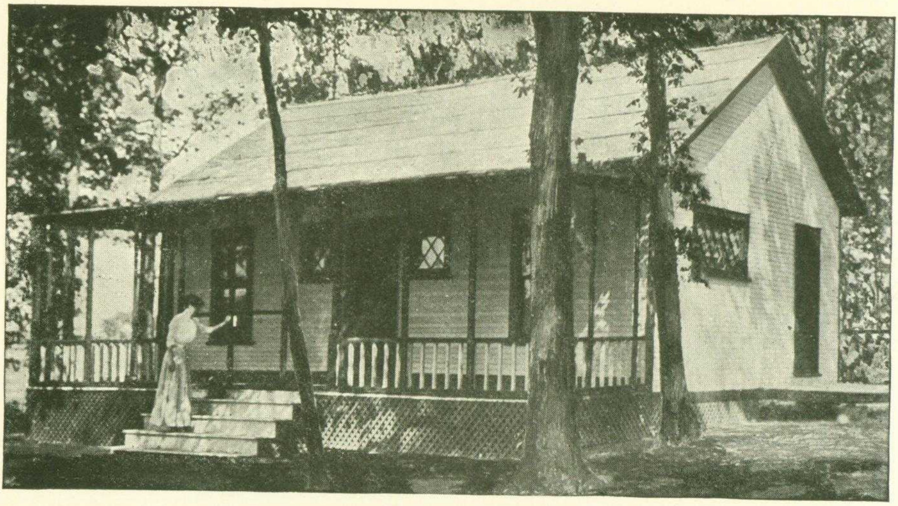
All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceiling, 8 ft. All ceilings square, not hipped.
Joists, 2 x 6 in. Sill, 4 x 6 in.
Studding, rafters, and ceiling joists, 2 x 4 in.
Joists, studding and ceiling joists placed every 16 in.
Sheathing lumber. Flooring, 1-inch matched, 3 inches wide.
Bevel siding.
Roof, 1-inch lumber, overlaid with best prepared roofing or shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Windows, 30 x 28 in., two sliding sash, glass double strength.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass.
Porch columns, 5 inches, with railing. Front and rear steps.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and out.



Floor Plan, The Gretna. 22 x 30



Josh Billings said : "There's no use arguing agin a success"— which exactly applies to Aladdin houses — nine years of success.



THE GENEVA

We show here two houses that you will notice to be very similar to the ever-popular Gretna. They are larger and offer you a selection between two floor plans at practically the same price. It is our aim to give as large a selection as possible, to conform to the tastes and needs of different people. The double casement window in the end, with diamond-paned windows, the two square windows, one on each side of the front door, the large oval glass door, are all very attractive features.

THE CHESTER

HERE is a dandy little brown and white shingled bungalow. Trim, neat, compact, and pretty. It charms every observer and delights every owner. Its fine rooms are nicely arranged, its porch roomy, and every room is well lighted. It is proving to be one of our best sellers. Of course, you can have any color effect for shingles and trim that your taste wishes.

SPECIFICATIONS

Size, 18 x 36 ft. Price, $525. Cash Discount, 5%. Net Price, $498.75. See Terms.

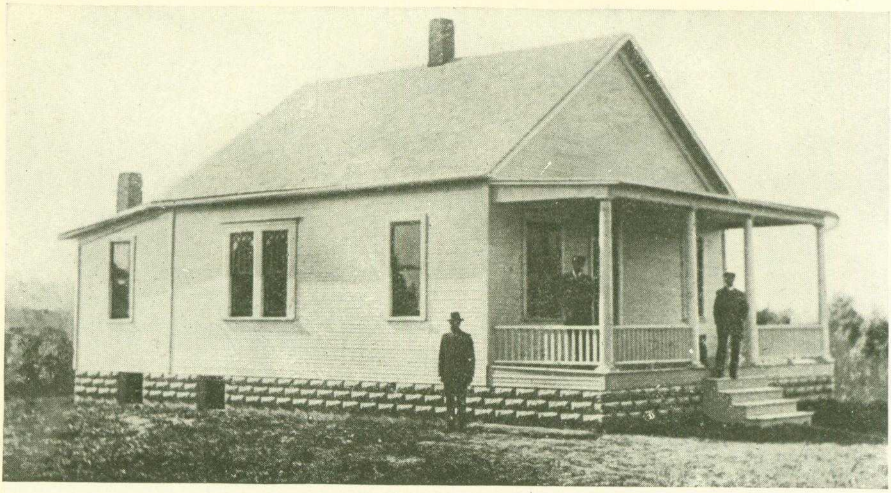
Of all sad words from a builder's pen
The saddest are these: "It might have been—an
Aladdin." CARRIE D. BRISTOL,
Gooding, Idaho.



THE HOPETON

Addition not included.

THIS attractive house is a very popular design, and has found favor in all localities. It presents a composite and harmonious design, very attractive from the outside and exceptionally convenient interior. It is a square house, such as many people prefer, and interior is arranged very attractively. The special design double window in dining room, with upper sash of divided glass, makes dining room very light and attractive. Arch leads from living room to dining room, closet off bed room, and pantry off of kitchen. If desired, the dining room and living room will be supplied in one large 12 x 24 ft. room. This house would cost not less than $1,200 if built by a contractor, and is worth that amount in any part of the United States.

SPECIFICATIONS

Size, 24 x 30 ft. Price, $566. Cash Discount, 5%. Net Price, $537.70. See Terms.
Size, 26 x 32 ft. Price, $630. Cash Discount, 5%. Net Price, $598.50. See Terms.
With 8 x 10 ft. addition, add $58. With 8 x 16 ft. addition, add $74.
With 10 x 16 ft. addition, add $118.

All lumber selected Huron Pine, Red Cedar, and Yellow Pine.
Height of ceilings, 9 ft. All ceilings square, not hipped.
Sill, 6 x 8 in.
Joist, 2 x 6 in. Studding, rafters, and ceiling joists, 2 x 4 in. Joists, studding and ceiling joist placed every 16 in.
Sheathing lumber. Bevel siding. Flooring, 1-inch matched, 3 inches wide.
Roof, 1-inch lumber, overlaid with best prepared roofing or shingles.
Patent plaster board or lath and plaster.

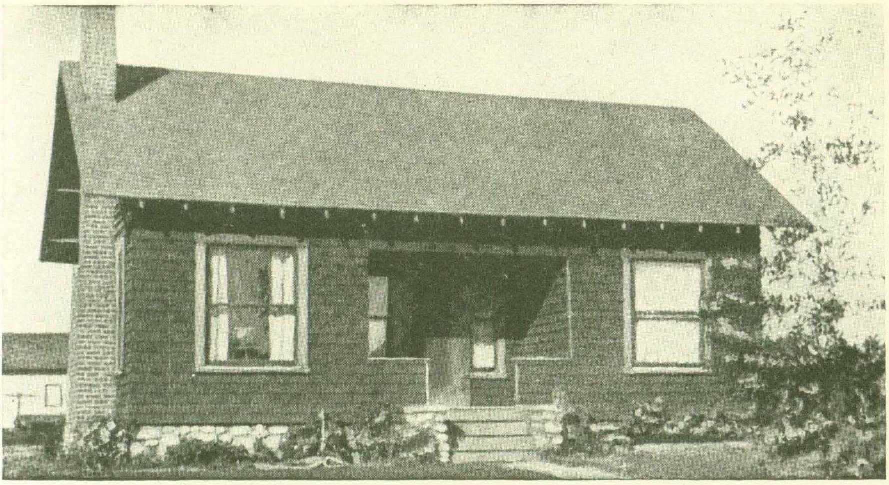
Floor Plan, The Hopeton. 26x32

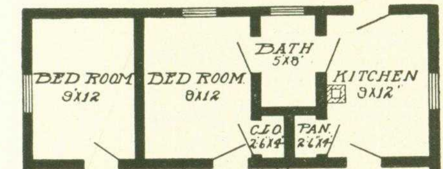


THE FORSYTH

SIMPLE square lines have been here transformed into a charming home. The plan is quite different from anything else shown in our book, yet the arrangement of rooms, convenience and access, one room with another is excellent. Note that the entrance hall gives access to three different rooms and is but a step from the kitchen. The living room is separated from the dining room by the hall, with a vista of two arches. Light is admitted to hall by windows on each side of front door. Two bed rooms, bath, and kitchen complete this snug design. The exterior is shingled, and shows very wide eaves with exposed rafters.

SPECIFICATIONS

Size, 32 x 24 ft. Price, $627. Cash Discount, 5%. Net Price, $595.65. See Terms.



Floor Plan, The Forsyth

All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceilings, 9 ft. All ceilings square, not hipped.
Sill, 6 x 8 in.
Joists, 2 x 8 in.
Studding, rafters, and ceiling joists, 2 x 4 in.
Joists, ceiling joist and studding placed every 16 in.
Flooring, 1-inch matched, 3 inches wide.
Roof, 1-inch lumber, overlaid with best prepared roofing or shingles.
Side walls, sheathing, and shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Windows, sash, 30 x 32 in., two sliding sash and special sizes glass double strength.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft 8 in. x 6 ft. 8 in.; front door, special design.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.

SAN BENITO, TEX., Aug. 18, 1913.

Gentlemen :

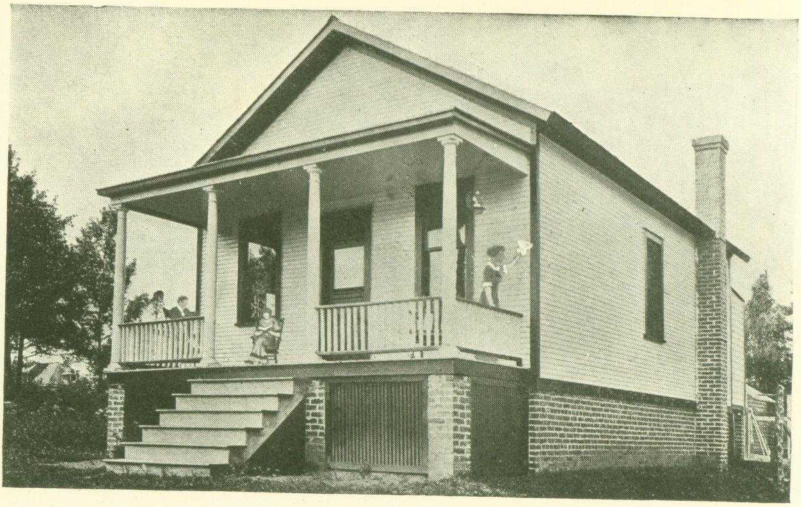
I received the house, with the porch extra, in good condition, and had it completed in two weeks from the day it arrived, with the help of one man.

I am very well pleased with both the way everything fit, and the grade of lumber, which is much better than can be bought here.

This is a new country, just building up, and I am certain that you will make more sales here, as a number of people have already been out to see my house and all are surprised to find so complete a little home for the price.

Hoping that you may receive many orders from here, and assuring you that I am an Aladdin booster, I remain,

Yours very truly, HARRY L. TOWNS.



THE JERSEY

A COSY, comfortable, convenient, warm home; that exactly describes this remarkable house. It is as good a building in every sense of the word for its size as money can buy, and when erected is worth $1,200 to $1,400. Note the specifications below and you will see that it is designed and built exactly like any good contractor would build it. This house can be put up and completed by two inexperienced men ready to be papered and painted in about one week. This is possible because every stick is cut the right size and ready to be nailed in place, and because our instructions and drawings are so complete that no fitting, figuring, or fussing is necessary. Every piece in the house is marked to correspond with the drawings. Study the floor plan and see how conveniently the house is laid out. Note the arch between living room and dining room, large porch, etc.

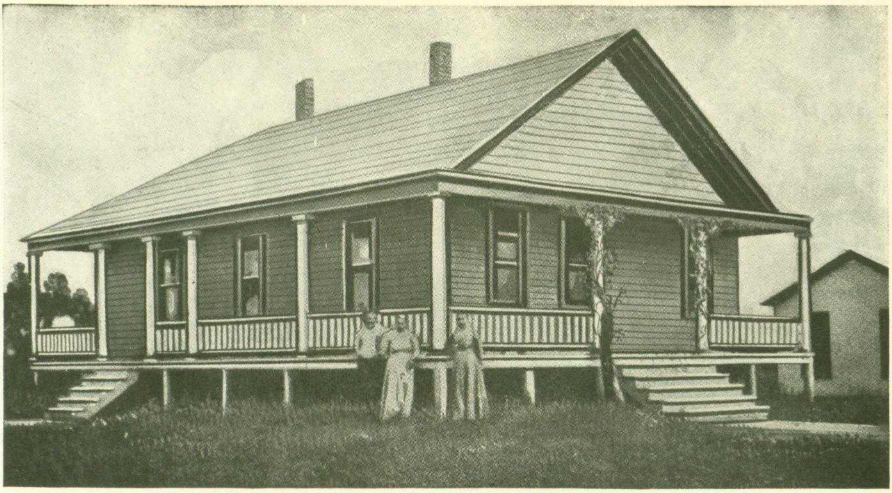
Aladdin Houses add to the joy of living.

J. H. GREEN,
Newton Falls, Ohio.



THE JEFFERSON

THIS house is practically the same as that shown on the foregoing page, except that it has porch running across the front and down one side. It is standard, one of our first designs, and has proven so popular, owing to its convenient arrangement and low price, that we have had to build it in many different sizes to meet the demands of our different customers. It evidences in a remarkable way the merit and economy of our method of construction. We show this below in five sizes.

SPECIFICATIONS

Jefferson, No. 1.	Size, 26 x 36 ft.	Price, $611.	Cash Discount, 5%.	Net Price, $580.50.	See Terms.

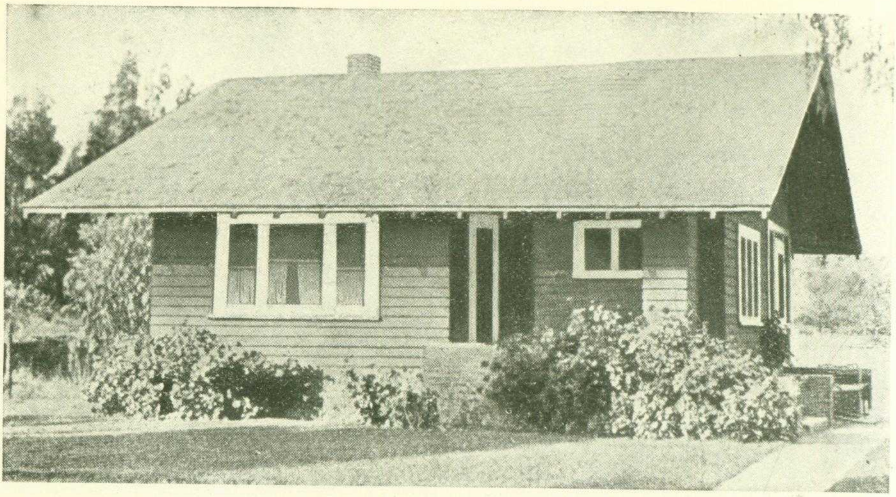
"Aladdin Houses make homes easy to attain"

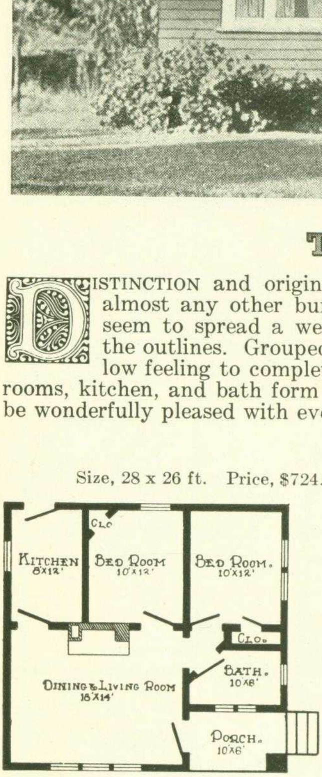


THE LORAINE

DISTINCTION and originality characterize The Loraine, and set it apart from almost any other bungalow you have ever seen. Exceptionally wide eaves seem to spread a welcome protection to its observer, and give strength to the outlines. Grouped windows and shingled side walls carry the true bungalow feeling to completion. Combined living room and dining room, two bed rooms, kitchen, and bath form a cozy and convenient interior arrangement. You will be wonderfully pleased with every feature of The Loraine.

SPECIFICATIONS

Size, 28 x 26 ft. Price, $724.00. Cash discount, 5%. Net Price, $687.80. See Terms.

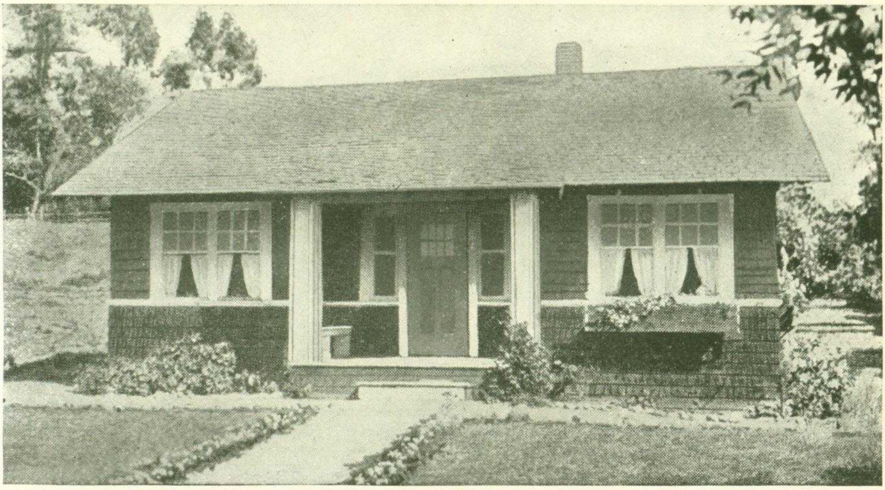


Floor Plan, The Loraine

All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceilings, 9 ft. All ceilings square, not hipped.
Sill, 6 x 8 in.
Joists, 2 x 8 in. Studding and rafters, 2 x 4 in.
Joists, studding and ceiling joist placed every 16 in.
Flooring, 1-inch matched, 3 inches wide. Sheathing and shingles for all sides.
Roof, 1-inch lumber, overlaid with shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish, clear Yellow Pine.
Windows, sash, 30 x 32 in., two sliding sash, glass double strength, also special sizes.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, special design.
Porch columns, square, with railing.
Front and rear steps.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.

We have just passed thru the coldest snap this part of the country has seen for about seven years. Thermometer went to 13 below zero. Our neighbors suffered untold hardships with their steam and hot-water heaters and with their plumbing, to say nothing of their suffering on account of not being able to heat their homes. We had no difficulty in keeping our home at 72. The plumbing was not harmed in the least, the water was not turned off and did not catch. In the morning we arose to a warm house with everything in perfect condition. We did not know it had been excessively cold until we read our recording thermometer. This seemed like a big story to our neighbors, but it is the truth just the same. I attribute the warmth to the construction and the plaster board.

Yours very truly,
H. L. THOMPSON,
Boston, Mass.

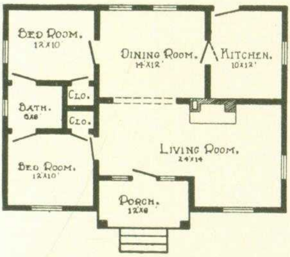


THE CARNATION

AN appealing and most hospitable entrance strikes the observer of The Carnation with a pleasing first impression. The porch forms almost an outdoor cozy corner, it being inset sufficiently to form a nook for protection against inclement weather. The side walls of The Carnation are all shingled. Grouped windows in front lend charm and furnish an abundance of light. A splendid living room, with arched division from the dining room, gives spaciousness, while the balance of the house gives decided convenience with well-located bed rooms, kitchen, bath, and closets.

SPECIFICATIONS

Size, 36 x 26 ft. Price, $828.00. Cash Discount, 5%. Net Price, $787.55. See Terms.



Floor Plan, The Carnation

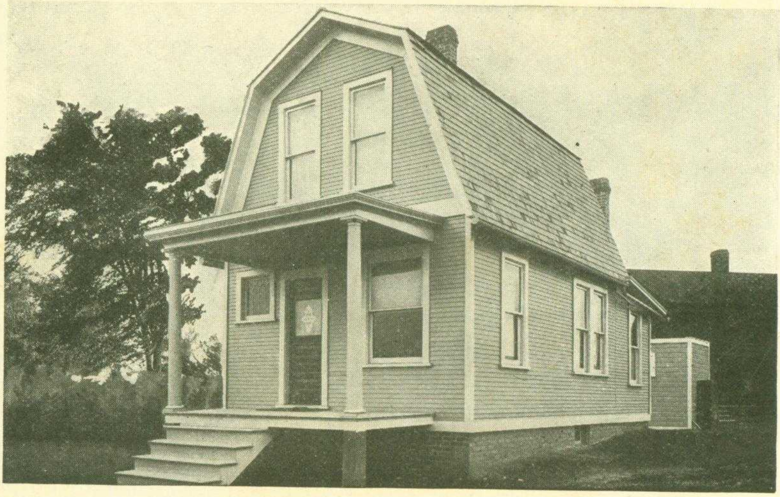
All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceilings, 9 ft. All ceilings square, not hipped.
Sill, 6 x 8 in.
Joists, 2 x 8 in. Studding and rafters, 2 x 4 in.
Joists, studding and ceiling joist placed every 16 in.
Flooring, 1-inch matched, 3 inches wide. Sheathing and shingles for all sides.
Roof, 1-inch lumber, overlaid with shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Windows, sash, 30 x 32 in., two sliding sash, glass double strength, also special sizes.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, special design.
Porch columns, square, with railing.
Front and rear steps.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.

I am having a lot of visitors and they all fall in love with The Romeo. One said to-day it makes the other houses look rather dingy.

I have a great many visitors inspecting the material, and among them are the builder inspectors. One told me this week that very few houses in San Diego have such good lumber in them, so you see I have them all on my side.

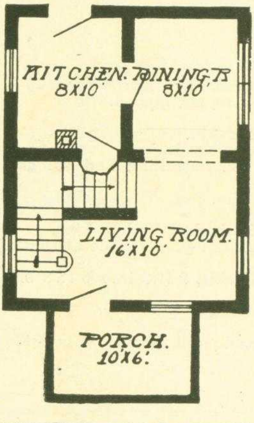
Respectfully,

A. BOUGHMAN, California.



THE TUCSON

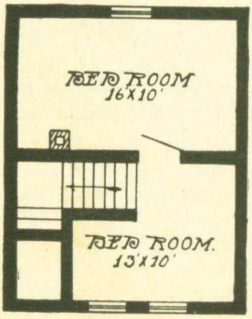
THE Tucson is positively the last word in a low-cost two-story, five-room house. It is hardly possible that a two-story house could be designed to utilize its space so economically and with such good results. The living room, opening as it does into the dining room, with a wide arch, gives a great degree of roominess. A living room, dining room, kitchen, and two bed rooms are secured in this design at a truly astonishing price for all the material for the complete house. Twenty-seven of these houses were sold to one large New York firm. Rear addition shown in photograph at bottom not included in this price. See page 87.

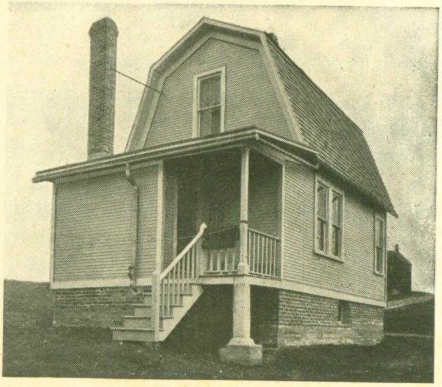


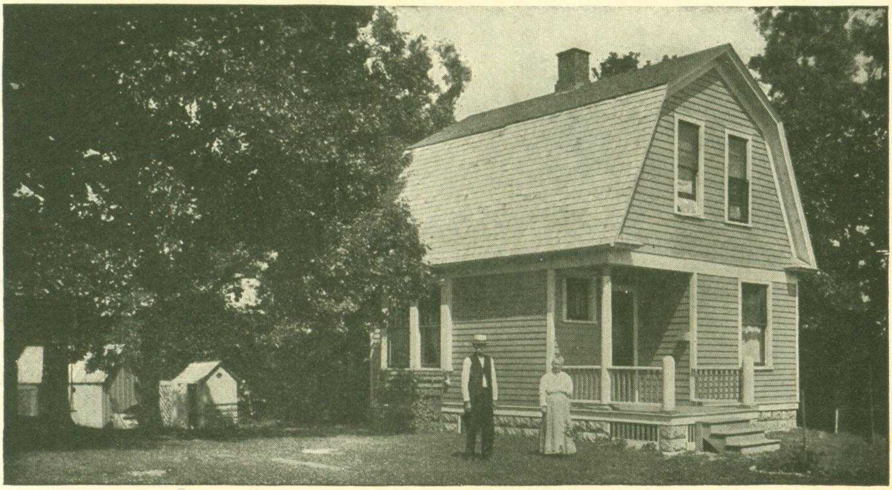
SPECIFICATIONS

Size, 16 x 20 ft. Price, $520. Cash Discount, 5%. Net Price, $494. See Terms.

All lumber selected Yelolw Pine and Huron Pine.
Height of ceilings, 9 ft. first floor; 8 ft. second floor. Sill, 6 x 6 in.
Joists, first and second floors, 2 x 6 in.; studding, rafters, and ceiling joists, 2 x 4 in. Joists, ceiling joist and studding placed on 16-inch centers.
Sheathing lumber. Flooring, 1-inch matched, 3 inches wide. Bevel siding.
Roof, inch lumber, overlaid with best prepared roofing.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Porch columns, 6 in., turned.
Windows, sash, 30 x 32 in., two sliding sash, double-strength glass.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.
Front and rear steps.
Hardware, locks, hinges, knobs, nails, paint for two coats inside and outside.







THE EDEN

On a ground space of 20 x 20 feet this house gives more room, more comfort, more convenience than has ever before been obtained. Two stories, having two bed rooms up stairs, a hall, a living room, a dining room, a kitchen, an open stairway, a porch, and, above all, an attractive-looking house.

Note the exterior features. A broad belt across front of house; diamond-paned single-sash window in hall over stairway; double diamond-paned window in dining room. A wide window fronts the house in living room. Handsome 8-inch turned porch column with cap and base is an attractive feature of the porch.

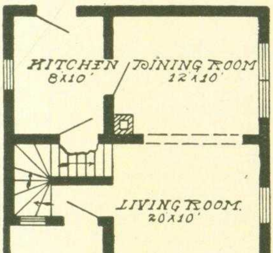
The Eden is also furnished with bath room on second floor. This is secured by including a dormer window on one side, taking no space from bed rooms. Price, with bath room, $38 extra.

Two men erected and completed this house in exactly six days at Bay City. It can be done by any two men who are willing to work, assisted by our complete instructions and illustrations.

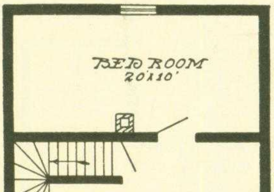
SPECIFICATIONS

Size, 20 x 20 ft. Price, $628. Cash Discount, 5%. Net Price, $596.60. See Terms.

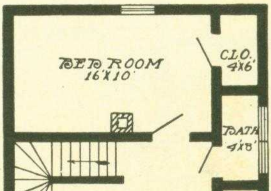
All lumber selected Yellow Pine, Red Cedar, and Huron Pine. Height of ceilings, 9 ft. first floor; 8 ft. second floor. Sill, 6 x 6 in. Joists, first and second floors, 2 x 6 in., studding, rafters, and ceiling joists, 2 x 4 in. Joists and studding placed on 16-inch centers. Sheathing lumber. Flooring, 1-inch matched, 3 inches wide. Bevel siding. Roof, inch lumber, overlaid with best prepared roofing (or shingles). Patent plaster board or lath and plaster. Base board and all interior trim and finish clear Yellow Pine. Windows, sash, 30 x 32 in., two sliding sash, double-strength glass. Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass. Porch column, 8 in., turned. Front and rear steps. Hardware, locks, hinges, knobs, nails, paint for two coats inside and outside.



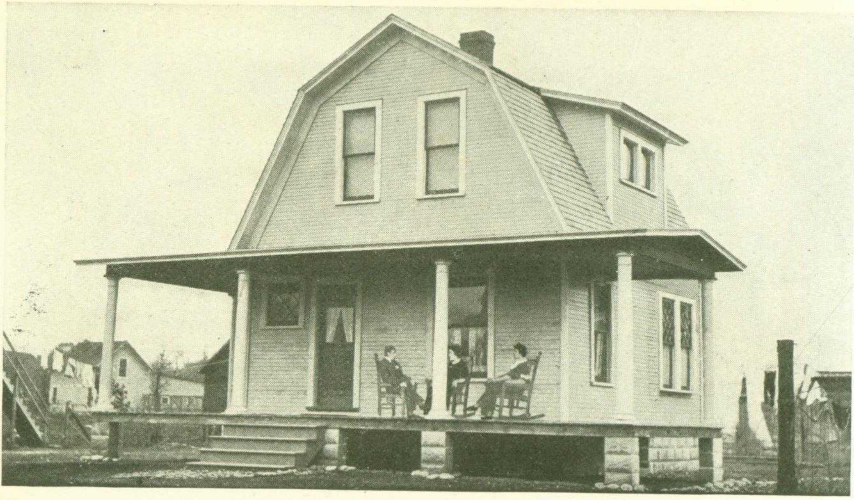
First Floor Plan, The Eden



Second Floor Plan, The Eden



The Eden, with Bath Room



THE NEWTON

The Newton is really an Eden with the attractive Newport porch, although it has considerably more room than the regular Eden. You will note that the porch is 32 feet long and 12 feet deep at ends. An attractive arch is furnished between living and dining room. Bath room on second floor.

SPECIFICATIONS

Size, 20 x 20 ft. Price, $726. Cash Discount, 5%.
Net Price, $689.70. See Terms.

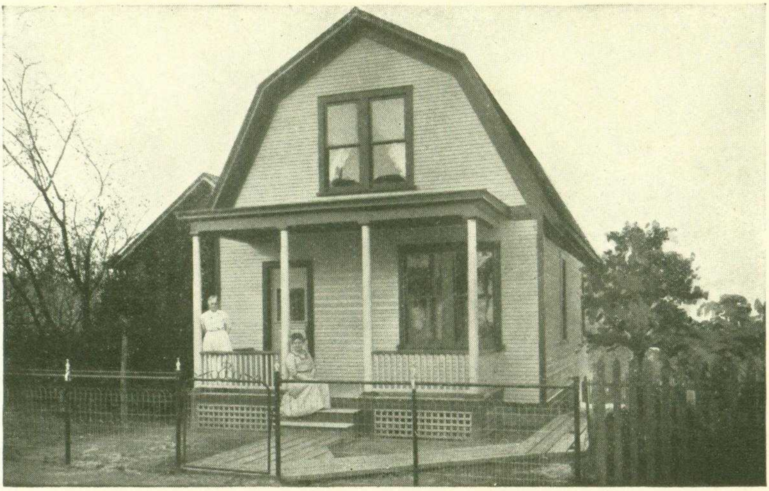
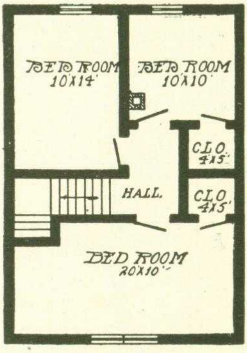
First Floor Plan, The Newton



THE ELGIN

THE Elgin is a thoroughly practical and modern six-room house. It has several desirable features particularly worthy of consideration. The living room is of the alcove type, roomy and well lighted. Semi-open stairway with cellar entrance is conveniently placed. The small rear addition forms both bath room and covered porch. Three bed rooms, closets, and hall are laid out advantageously on the second floor. The house is especially adapted for a narrow city lot, having a frontage of 20 ft.



Second Floor Plan, The Elgin

SPECIFICATIONS

Size, 20 x 34 ft. Price, $798. Cash Discount, 5%. Net Price, $758.10. See Terms.

All lumber selected Yellow Pine, Red Cedar, and Huron Pine. Height of ceilings, 9 ft. first floor; 8 ft. second floor.

Sill, 6 x 6 in.

Joists, first floor, 2 x 8 in., and second floor, 2 x 6 in.

Studding, rafters, and ceiling joists, 2 x 4 in.

Joists, ceiling joists, and studding placed on 16-inch centers.

Flooring, 1-inch matched, 3 inches wide. Bevel siding. Sheathing lumber.

Roof, inch lumber, overlaid with best prepared roofing (or shingles).

Patent plaster board or lath and plaster.

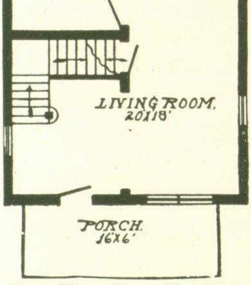
Base board and all interior trim and finish clear Yellow Pine. Porch columns, 6-inch turned.

Windows, sash, 30 x 32 in., two sliding sash, double-strength glass.

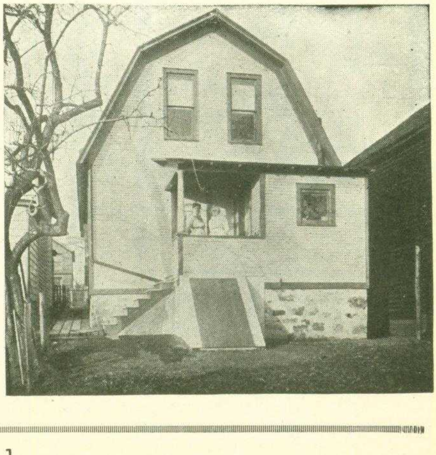
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass.

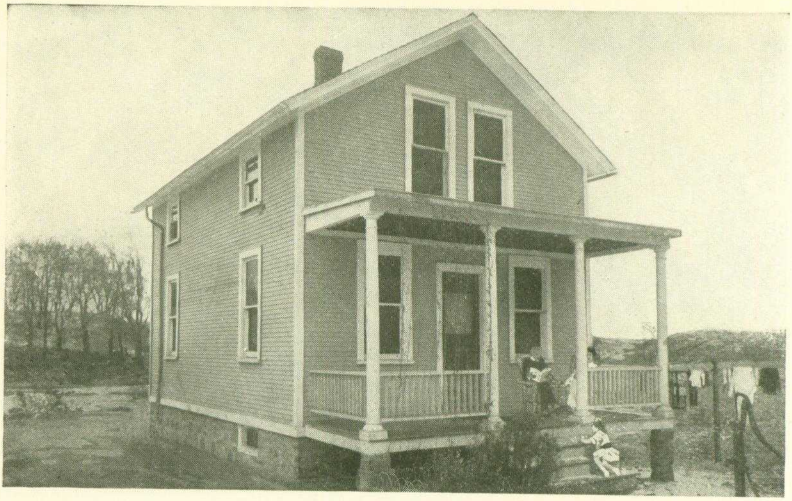
Front and rear steps.

Hardware locks, hinges, knobs, nails, paint for two coats inside and outside.



First Floor Plan, The Elgin





THE FINLEY

The Finley is a remarkably low-price house for its size. It is, however, a very neat six-room house. The living-room is 14 x 18 ft., and an attractive open stairway is in the rear of this room. A 10 x 12 ft. dining room and an 8 x 12 ft. kitchen make up the balance of the first floor, while three bed rooms and closet are up-stairs. This house can be erected by two men in eight days. We believe it's the remarkably low price that makes The Finley so popular. Living room extends clear across front on first floor and bed room occupies same location on second floor.

SPECIFICATIONS

Size, 18 x 32 ft. Price, $733. Cash Discount, 5%.
Net Price, $696.35. See Terms.

All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceiling, 9 ft. first floor ; 8 ft. second floor.
Sill, 6 x 6 in.
Joists, first floor, 2 x 6 in.; second floor, 2 x 6 in.; studding, rafters, and ceiling joists, 2 x 4 in.
Joists, ceiling joist and studding placed on 16-inch centers.

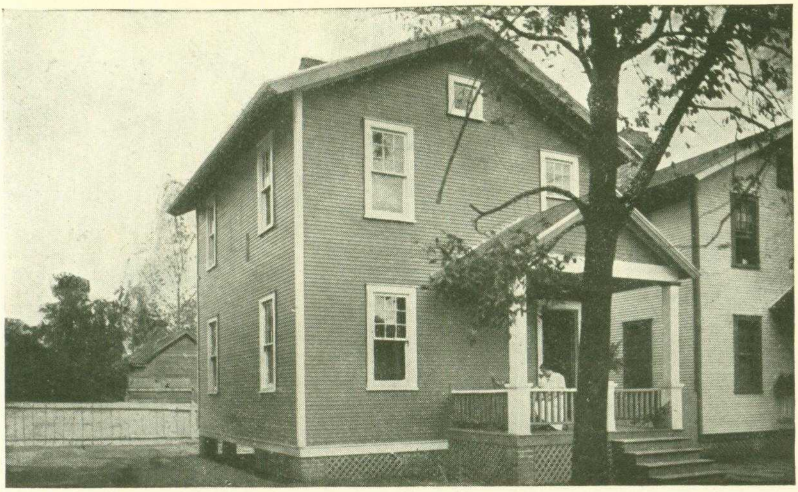
"Originality, beauty, and low cost characterize Aladdin Houses"



THE AUGUSTA

For the average family The Augusta will be a home in every sense of the word. Every room in the entire house is convenient up stairs and down. Every room has plenty of light and the bed rooms are furnished with good-sized closets. The exterior appearance of the house shows up even better than the picture. This house when painted and finished attractively will be a revelation to you, in that a house of this character can be erected and completed at such a low cost.

SPECIFICATIONS

Size, 20 x 24 ft. Price, $840. Cash Discount, 5% Net Price, $798. See Terms.

THE THORNDALE

THE photograph, the floor plan, and the price are all that need be called to your attention in showing you this remarkable The Thorndale. What more can be added in its favor? A ten-room house at this price! And yet, if you haven't use for so many rooms, we will furnish the house leaving out the partition between the two down-stairs bed rooms, making a 10 x 16 ft. living room, or if you wish at least one large bed room up stairs, we will leave out partition between any two rooms. These changes will not change the price. This house is a big seller.

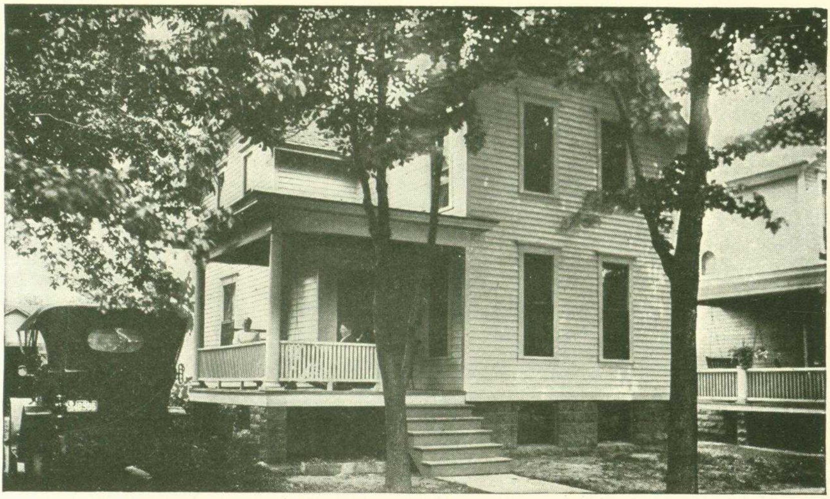
"Aladdin Houses mean opportunity to the man who wants a home"



THE MICHIGAN

HERE is a model six-room dwelling which offers unusual value for the price. The interior rooms are arranged for convenience, ventilation, and plenty of light. The vestibule opens direct into either the living room or dining room. The up stairs bed rooms are well lighted, each having a closet. A good-sized porch with attractive turned pillars affords plenty of room for sitting out and enjoying the pleasant weather.

SPECIFICATIONS

Size, 24 x 24 ft. Price, $839. Cash Discount, 5%. Net Price, $797.05. See Terms.

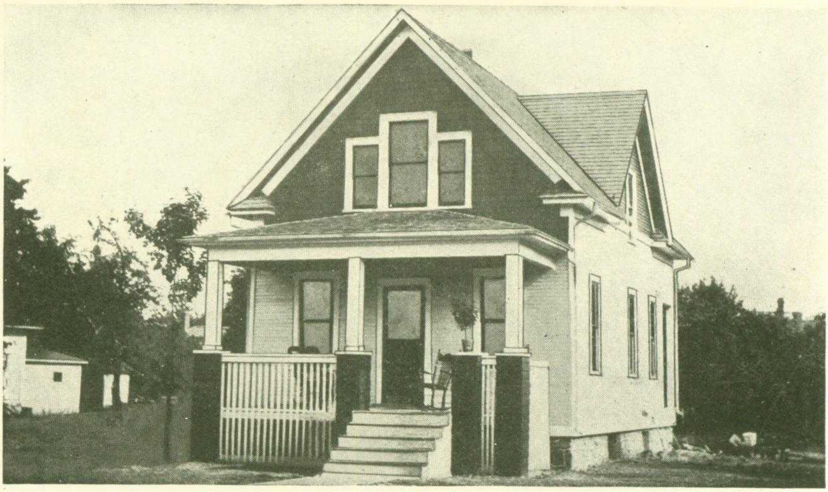
The wasteful man pays rent,
The wise man owns an Aladdin



THE PORTLAND

FOUR gables give The Portland a surprising amount of room on its second floor. Large front room, two rear bed rooms, bath and linen closet are secured with this excellent roof design. On the first floor a twenty-foot living room extends across the full front of the house, arch leads to dining room, and good kitchen, pantry, and inset rear porch are arranged. The porch railing is of the full length square spindle type and columns set on pedestals. Attractive group window fronts the upper part of the house, and the gable is furnished with shingles.

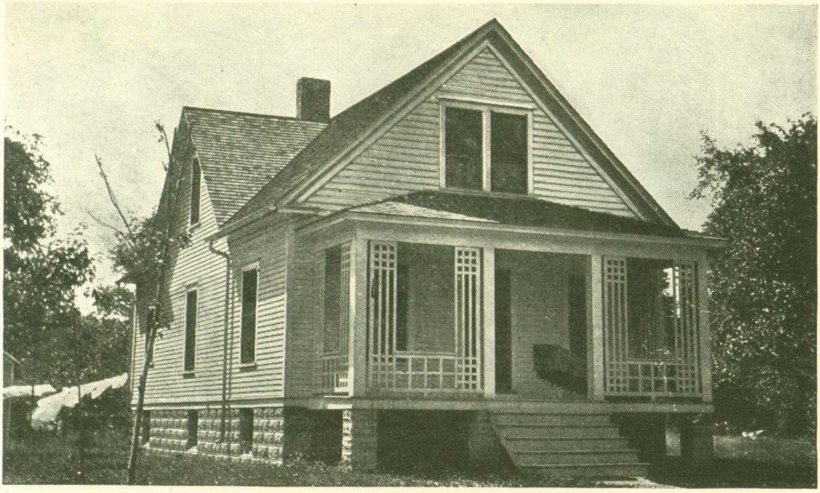
Second Floor Plan, The Portland

The easiest, quickest, cheapest way — the Aladdin way.

MRS. W. D. MEEHAN,
R. F. D. No. 1, Asheville, N. C.



THE PORTLAND No. 2

THERE has been such a large demand for our Portland No. 1 that we have decided to add another size, giving a selection of sizes. You will note that we have secured five good bed rooms in this size, quite surprising when you consider the living room being 24 feet wide by 12 feet deep and the excellent dining room, kitchen, pantry, bath, and closets. Semi open stairway adds considerable to the appearance of the living room. The exterior is very pretty, with the original porch rail of lattice effect. You will be delighted with this home in every way.

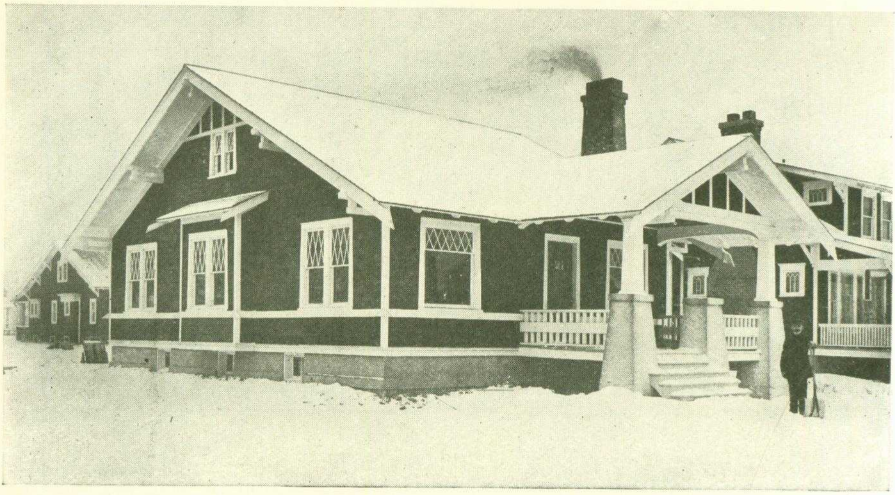
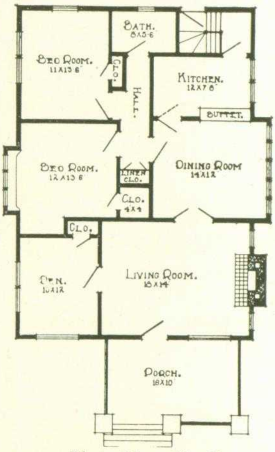
*"The Aladdin System eliminates waste—
in labor and material"*



THE POMONA

A HOST of comfort and beauty is embodied in this model home. Is of the bungalow type with the overhanging roof. The porch in front is in perfect harmony with the balance of the house. The large, massive pillars add to it a touch of individuality.

The interior is all that could be desired in a cozy home. A large living room, with the dining room set off at one side and fireplace at the opposite side. The dining-room has the grouped windows, affording plenty of light. Two bed rooms, with closets, bath, and kitchen as well, complete the floor plan. The hall leads from the bath room to the linen closet.



Floor Plan, The Pomona

SPECIFICATIONS

Size, 28 x 38 ft. Price, $1,365.00. Cash Discount, 5%. Net Price, $1,296.75. See Terms.

All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceiling, 9 ft. All ceilings square, not hipped.
Sill, 6 x 8 in.
Joists, 2 x 10 in.
Studding and ceiling joists, 2 x 4 in. Rafters, 2 x 6 in.
Joists, ceiling joist and studding placed every 16 in.

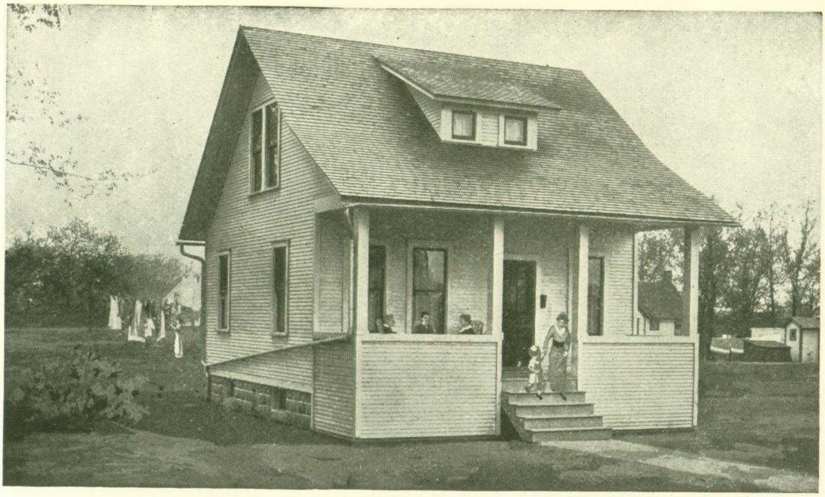
Windows, sash, 30 x 32 in., two sliding sash, glass double strength.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, 3 ft. x 7 ft., special design Oak.
Hardware, locks, hinges, knobs, nails, paint for two coats, inside and outside.

I am very proud of my bungalow, and it is very warm. It was 25 and 30 below zero here in Leeds, but in our little Denver, it was 75 to 80 above zero. Since last October, we have burned up two tons of coal. My wife would live in no other but an Aladdin house. We have another house 300 feet from our new one where we lived for six years, but we never could keep warm in winter.

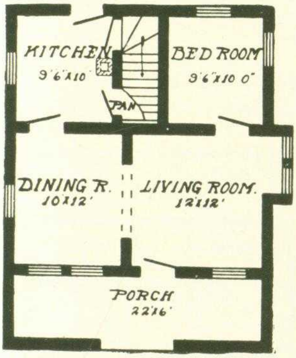
Yours truly,

GILBERT COCHOIS, Massachusetts.



THE HURON

UNPRETENTIOUS, yet pleasing in general outline, The Huron will be found decidedly satisfactory throughout. It is of the two-story bungalow type, giving the utility of a second story, with the usual cottage or bungalow outline. The bay window forms a cosy nook for a window seat. The porch has a solid railing, much desired by many.



First Floor Plan, The Huron

SPECIFICATIONS

Size, 22 x 28 ft. Price, $829. Cash Discount, 5%.

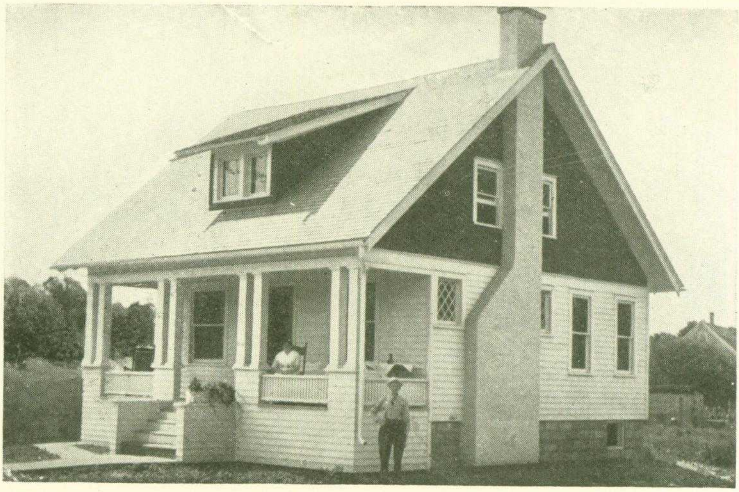
Second Floor Plan, The Huron



THE DETROIT

A TWO-STORY design and yet carrying genuine bungalow lines throughout. Roomy, well arranged, and very satisfactory to all owners. This makes one of the most charming little homes imaginable with its good living room, three bed rooms, kitchen, bath, big closets, roomy porch, and semi-open stairway. The price, as on our other buildings, is at least 30 per cent. lower than the same building could possibly be built by ordinary methods. Consider the advantage of knowing in advance the exact cost of all the material for the complete structure.

SPECIFICATIONS

Size, 26 x 30 ft. Price, $932. Cash Discount, 5%. Net Price, $885.40. See Terms.

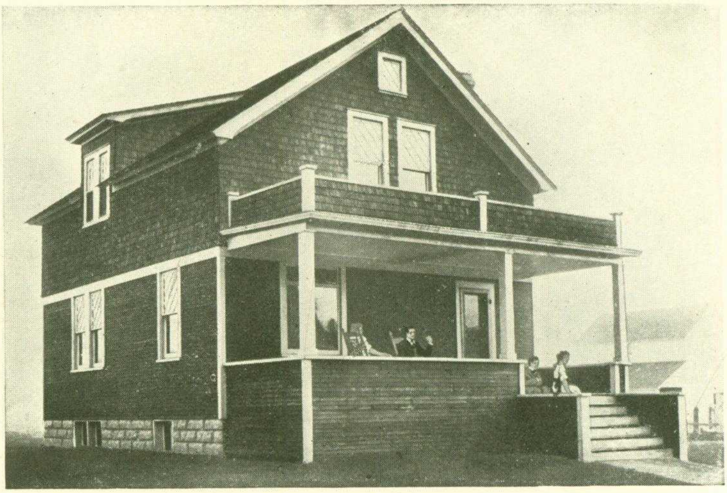
"'Home'—the greatest word in the English Language"



THE HAMILTON

THIS is a very popular type of house in the smaller cities. It is of the half-shingled style, with a gable roof, porch, and split-roof dormer. It is one of the simplest and easiest to build of any of our two-story designs. The living room is of generous dimensions, and open stairway at the rear. Living room, bed room, dining room, and kitchen are down stairs, and four bed rooms with closets and bath are up stairs.

SPECIFICATIONS

Size, 24 x 36 ft. Price, $1,042. Cash Discount, 5%. Net Price, $989.90. See Terms.

THE CAROLINA

HERE is a strong, substantial-looking home that impresses every one. It has some exceptionally desirable advantages not found in any other design. In the first place, the price we have been able to place on it is truly astonishing for its conveniences. Four good bed rooms — think of it! One bed room is down stairs. Every bed room has a good closet, with an especially large extra closet in the front bed room. The massive roof with heavy grouped columns on porch gives a very substantial appearance. This house is certainly a credit to any owner.

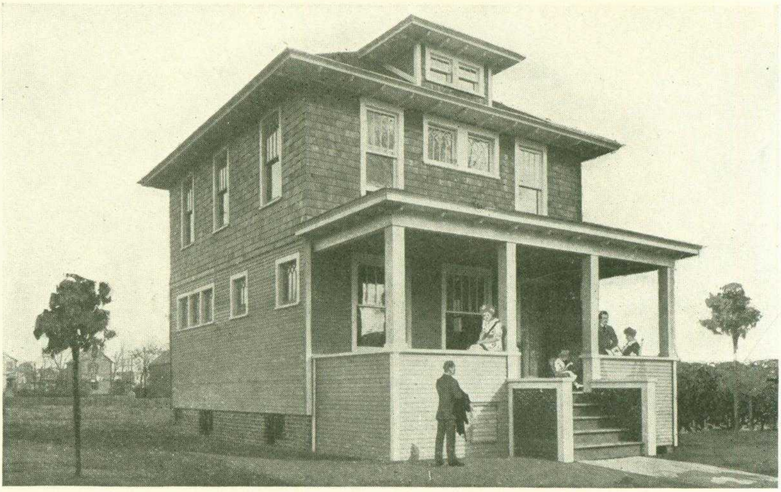
IMITATORS OF THE ALADDIN HOUSE CAN ONLY HOPE TO FOLLOW THE TRAIL BLAZED BY ALADDIN QUALITY, SERVICE, AND ECONOMY. THEY CAN NEVER EQUAL ALADDIN SATISFACTION

"Home-owning hearts are happiest"



THE ADDISON

SEVERAL different features are incorporated in the design of the Addison not shown in our many other styles. It is a big, square, sensibly-designed house with finished details to lend a pleasing appearance. The porch work is especially attractive, all posts being paneled, the frieze being embellished with dentals and attractive mouldings. The porch rail may be either enclosed or open, as preferred. Light is given to the roomy attic by the neat dormer window. Wide front windows and handsome front door are noticed. Inside are shown living room, with open paneled stairway, dining room, pantry, kitchen, and four bed rooms and bath.

The Cumberland is a trim, clean type of architecture, attractive in its simplicity and pleasing in its lines. Roof lines flare into eaves, holding the height of roof down while the dormer window breaks the front. The porch rail is effective and harmonizes excellently with the house. The floor plan presents a fine arrangement for convenience, roominess, and good accommodations for a large family, there being four bed rooms, good big living room, dining room, and reception hall. Grade cellar entrance can be approached from both front reception hall or kitchen.

THE HUDSON

No comment on our part is needed to convince you of the many attractive features of The Hudson. Every need in a modern and up-to-date home is afforded by this design, with its large living room, dining room, kitchen, pantry, hall, four bed rooms, bath, and closets. It seems hardly possible to secure more room, more space, or more convenience in 24 x 36 ground space. Note grade cellar entrance at side. Eaves line of porch harmonizes with eaves line of roof and a broad belt is carried around the house between first and second stories. When painted in the trim color this adds greatly to the appearance of this house.

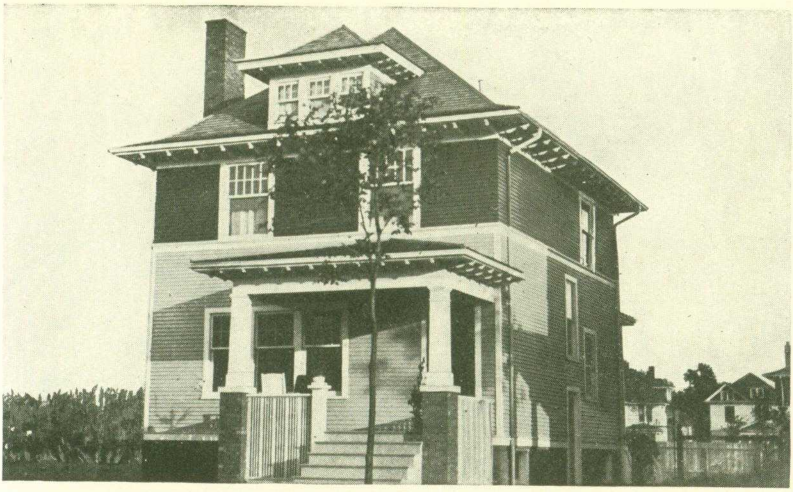
Aladdin Houses make happy homes.

DUAINE COX,
Elsie, Mich.



THE STANDARD

If you like a square house, the Standard will surely appeal to you as one of the handsomest you have seen. A broad belt runs around the house just under the upper windows, and the decorative plan calls for dark-colored paint above this belt and light below, or the reverse. Exposed scrolled rafter ends are shown under the eaves, which flare straight out; good heavy porch pillars, large triple windows in front, full length porch railing, reaching to ground — these are each and every one distinctly desirable attractions. Has grade entrance. One of the best sellers among the larger houses.

SPECIFICATIONS

Size, 22 x 30 ft. Price, $1,146. Cash Discount, 5%.
Net Price, $1,088.70. See Terms.

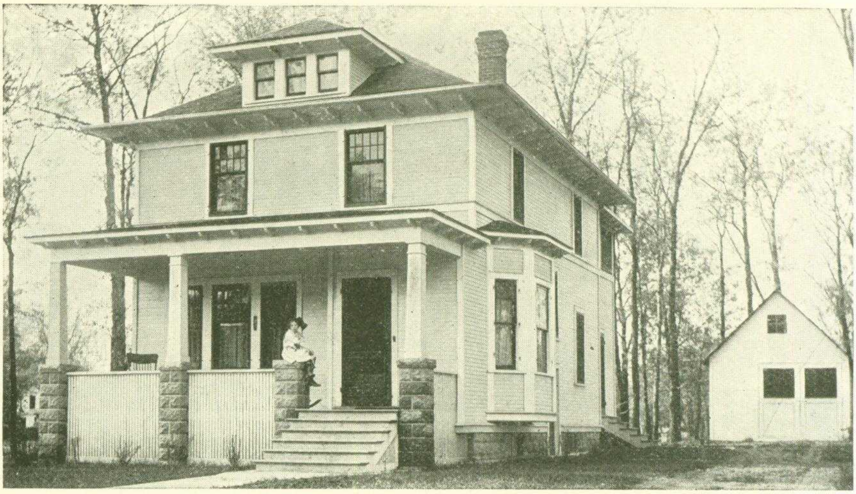
"Aladdin houses help solve the problem of the high cost of living"



THE VIRGINIA

HERE'S a home. From every view it breathes a welcome, inviting you into its big, strong, protecting walls to find comfort, pleasure, and satisfaction. From the front it strikes you pleasingly, and as you approach, the impression is heightened by the finished detail of roof, eaves, columns, and porch work. Just inspect the arrangement of the interior. A living room that stretches from the bay window on one side of the house to other, twenty-two feet, with the dining room separated by a wide arch — a freedom and expanse usually found only in much larger houses. Kitchen, four bed rooms, bath, and closets complete this beautiful home. It is built to satisfy the hardest to please. It is a continual delight to every owner.

SPECIFICATIONS

Size, 22 x 30 ft. Price, $1,220. Cash Discount, 5%. Net Price, $1,159. See Terms.

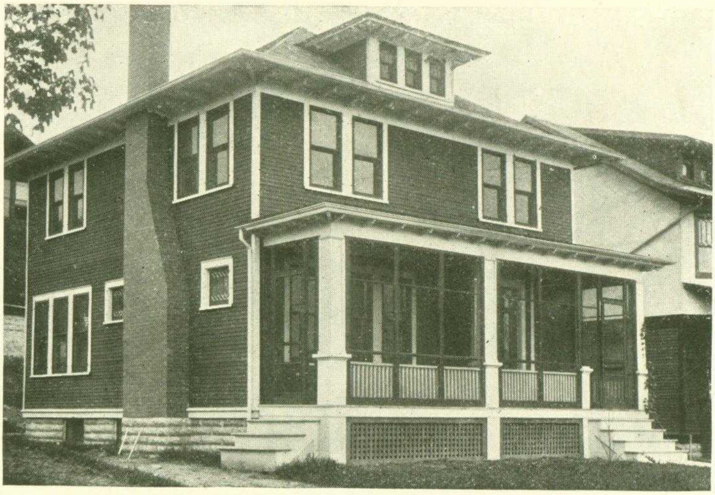
MRS. ELLA R. WILEY,
Brewster, Minn.



THE ROCHESTER

A VERY attractive medium-priced house, clear-cut and of modern design. The large porch extending across the front is a very desirable feature. The exposed rafter end projecting out under the eaves together with the dormer adds a great deal to the outside appearance. The first floor rooms are well arranged for light and accessibility. A cased archway, separating living and dining rooms, gives a very pleasing effect looking from either room. The kitchen can be reached either from den or pantry through dining room. Inside cellar entrance from den with grade entrance. Three bed rooms, clothes closets, sewing room, and bath on second floor. In all, a house of balanced proportions and conveniently arranged for a medium-sized family.

THE SALEM

A NEW, square town-house, similar to our popular "Standard." Inside arrangement conforms to the same square plan. Roomy porch is built up solid, with siding from ground to railing. Two vents or scuppers. Three round columns rest on square pillars that nicely ornament the porch construction. First story has siding walls and upper sidewalls of shingles. Large windows afford plenty of light. This house has four bed rooms.

SPECIFICATIONS

Size, 28 x 30 ft. Price, $1,498. Cash Discount, 5%.
Net Price, $1,423.10. See Terms.

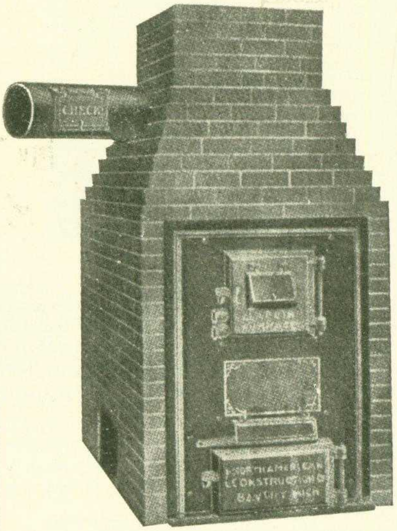
"Nothing is too good to go into an
Aladdin House"

THROW AWAY YOUR STOVE

You Can't Afford to Use It When $45.00 Buys this Aladdin Pipeless Furnace



A stove will burn fully as much fuel as this furnace. Ordinarily, a stove will not heat more than one room with any degree of satisfaction while this furnace will heat your entire home. Cold air is taken in through three 8 x 10 registers, placed in the base of the jacket which goes around the furnace proper. The warm air is discharged with great force through one 14 x 20-inch register placed directly above the furnace, and into the room nearest the center of the home. The warm air goes directly to the ceiling, from where it circulates to all the rooms in your home. There will be a variation of less than 3 degrees between the room where the register is placed and the room farthest from it.

No. 3D325 Aladdin pipeless furnace complete, ... $45.00
(Less brick for the jacket.)

For a full line of heating material, we call your attention to pages 45 to 53 of our Hardware and Heating Catalog, a copy of which we will send upon request.

Any fixture sold separate at prices quoted above. We show a complete line of fixtures in our hardware catalog. Ask for it.

DEPARTMENT OF SERVICE

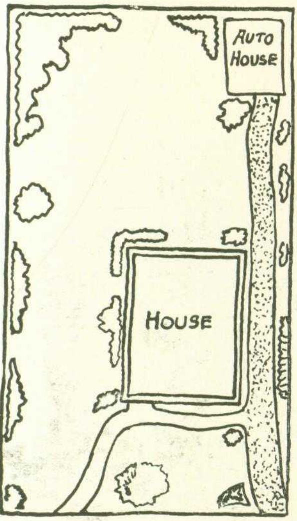
Did you ever really consider the wonderful difference in the meaning of the words house and home?

A house is a structure to live in

Home — the dearest place on earth — is that structure that is a part of you — made so by its association with your family, their joys and sorrows, their hopes, aspirations, and fears. It is a refuge from the trials and struggles of the outer world. It is a visible expression of yourself, your tastes and character.

Perhaps you find it difficult to express yourself, your tastes, as you feel them in the arrangement, furnishing, and decoration of your home. You may not be sure of yourself. Right there is where our Department of Service can help.

This department is in the hands of people trained in planning and arrangement of artistic exterior and interior effects for the home — design, decoration, planning, etc. It is organized and maintained for a single purpose — to serve our customers. There is no charge for this service.



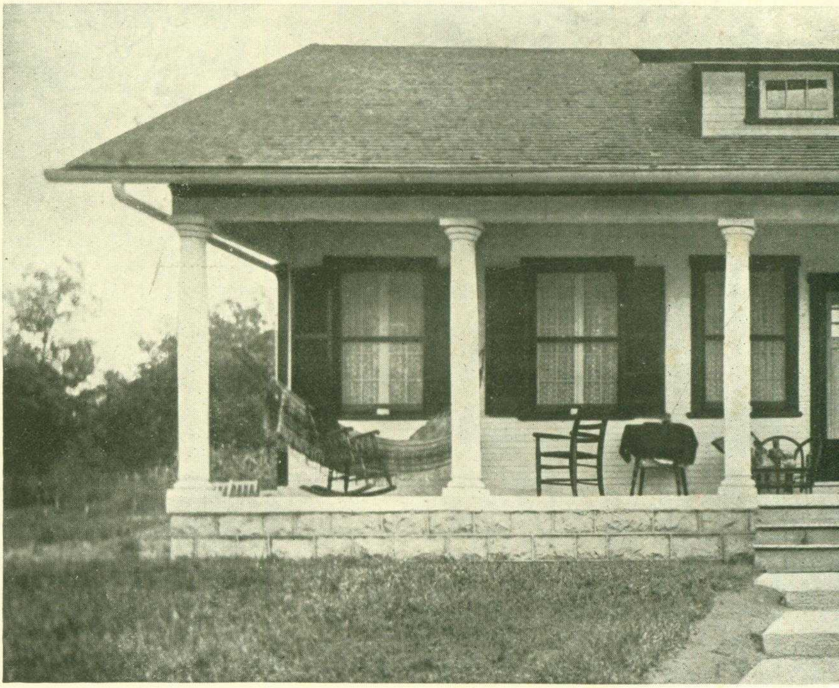
Example of Plan Furnished by Landscape Branch

If you have a general idea of color in the exterior painting plan that you would like to follow, let the service department work out the details. In the interior finish and wall colors you may either put the responsibility entirely up to the department, or by suggesting general preferences, it will work to your suggestions and carry out the details.

By furnishing the department with the size of your grounds, sketches will be worked out for attractive planting of shrubberies, plants, trees, etc., with lists of seeds and vines.

In fact, the Department of Service will help to make your "Aladdin" house home, in every sense possible.

In seeking this service you have only to address the Department of Service, care of this company. The service this company renders its customers in decoration and planting would cost from fifty dollars to five hundred dollars if you consulted the average landscape architect. It is but one of the links in the chain that creates such a close bond between our customers and us.



THE K

THE place of honor is given to the Aladdin Bungalow, The Kentucky. Is it not a beau
While it reminds one of the stately colonnades of old colonial mansions, it still retai

ONE YEAR'S RENT WILL FURNISH A HOME

HAVE you ever considered the amounts paid to landlords each year? They accumulate very fast. Every family living in a rented house pays enough to the landlord each year, at twelve dollars ($12.00) per month rent, to buy the following:

New vacuum cleaner,	$12.00
New electric iron,	4.00
New dining-room table,	18.00
Six new dining-room chairs,	9.00
New Colonial sewing table,	10.00
New sewing machine,	14.00
New rug,	18.00
New rocking chair,	5.00
New kitchen cabinet,	15.00
New buffet,	18.00
New Victrola,	15.00
New porch swing,	4.00
New set of dishes,	6.00
TOTAL,	$148.00

How long would it take you to own a new home if you saved this $148.00 each year? Why not select your home to-day? Be your own landlord and receive the $148.00 yearly payments yourself.

upon them. Of course, we have a stock finish, at the price listed, with which each of the houses is furnished, but they differ with the various designs. Built-in furniture, paneled walls, beamed ceilings, columned arches, buffets, bookcases, in fact, everything that is found in the most modern homes can be had of us. The prices are based on the closest margins — in fact, are about equal to what the material costs the average mill or shop.

For interior finish, we furnish with each house whatever you may select in the way of paints, oils, stains, or varnishes, so that your taste may have free rein.

WARMTH OF AN ALADDIN HOUSE

ONE of the most essential things to consider in the purchase of a home, in northern climates, is its construction for warmth.

We have aimed to furnish the warmest construction so as to reduce the fuel bills to a minimum. On the outside of the studding we furnish sheathing, and on the outside of the sheathing, bevel siding. Four inches in from this outside wall we furnish plaster board for lining the inside walls, ceilings, and partitions. Between the plaster board, sheathing and siding on the outside is a four-inch dead air space which in itself is one of the best non-conductors of heat and cold.

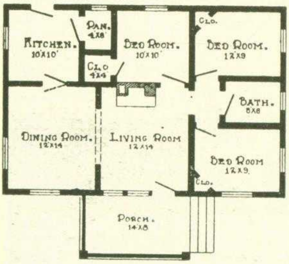
THE FLORENCE

THE Florence is a delightfully modeled home with several original features. Notice that the steps lead to porch from the side instead of the ordinary way from the front. This results really in more available space on the porch. Handsome square columns support the projecting roof in perfect harmony. The interior is very well balanced, three excellent bed rooms being secured in a house of such moderate cost. A wide arch separates living room and dining room, and convenient entrance is had with all rooms. Bath, pantry, and closets complete this altogether attractive bungalow.

SPECIFICATIONS

Size, 36 x 24 ft. Price, $829.00. Cash Discount, 5%. Net Price, $787.55. See Terms.

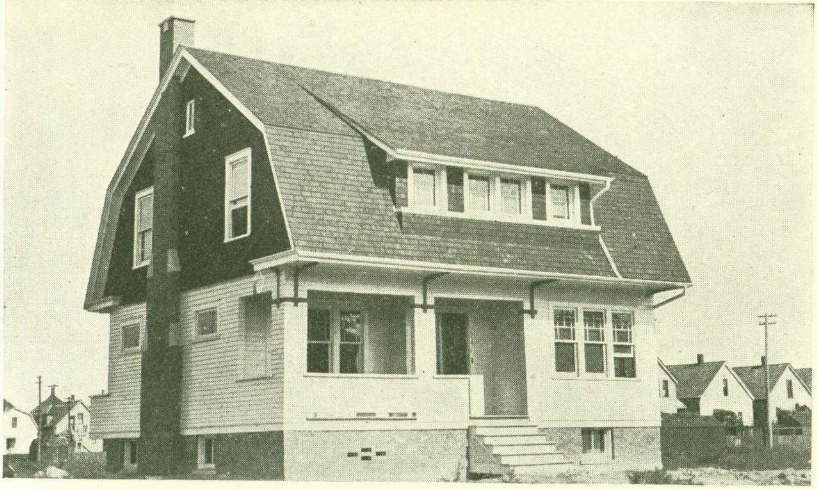


Floor Plan, The Florence

All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceilings, 9 ft. All ceilings square, not hipped.
Sill 6 x 8 in.
Joists, 2 x 8 in. Studding and rafters, 2 x 4 in.
Joists, studding and ceiling joist placed every 16 in.
Flooring, 1-inch matched, 3 inches wide. Sheathing and shingles for all sides
Roof, 1-inch lumber, overlaid with shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish, clear Yellow Pine.
Windows, sash, 30 x 32 in., two sliding sash, glass double strength, also special sizes.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, special design.
Porch columns, square, with railing.
Front and rear steps.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.

Our Detroit has wintered in good shape. We were comfortably warm during the coldest weather of the winter, which is more than any of our neighbors could say. We are more pleased to-day than when the house was first finished.

Very truly,
J. C. PERKINS,
Connecticut.



THE BIRMINGHAM

The Birmingham has the shingled gables with siding on first story, split roof dormer with group of four windows, especially designed; divided light windows, small windows in side of living room for over fireplace (although full-sized windows will be furnished if desired). Large living room with arches from it and dining room into hall; three large bed rooms and closets and bath—all the desirable things needed to make a real home. It would be impossible to get more beauty, comfort, and convenience into a house of this size.

SPECIFICATIONS

THE AMHERST

The Amherst is a strickingly attractive type of a two-story bungalow. This house has all the charms and hominess of the bungalow combined with the advantages of the two-story house. A grade cellar entrance affords entry into either basement or kitchen. An attractive and well-arranged kitchen cabinet is included, which is much more desirable than a pantry, as it will save hundreds of steps and unnecessary work.

The large living room is separated from dining room by a heavy cased arch of a very attractive type. The up stairs arrangement is all that could be desired. The four bed rooms and bath open direct into main hall. Each bed room is very well lighted and each have ample closet room for ordinary purposes.

SPECIFICATIONS

Size, 26 x 30 ft. Price, $1,187. Cash Discount, 5%. Net Price, $1,127.65. See Terms.

All lumber selected Yellow Pine, Red Cedar, and Huron Pine. Height of ceilings, 9 ft. first floor; 8 ft. second floor. Sill, 6 x 8 in. Studding, 2 x 4 in. Rafters and ceiling joists, 2 x 4 in. Joists, 2 x 8 in. down and 2 x 6 in. up stairs. Joists, ceiling joist and studding placed every 16 in. Sheathing lumber. Flooring, ⅞ in., 3 inches wide. Bevel siding first story, shingles second story. Patent plaster board or lath and plaster. Base board and all interior finish clear Yellow Pine. Sliding sash, double strength glass. Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass. Front and rear steps. All hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside. Complete instructions and illustrations for erecting.

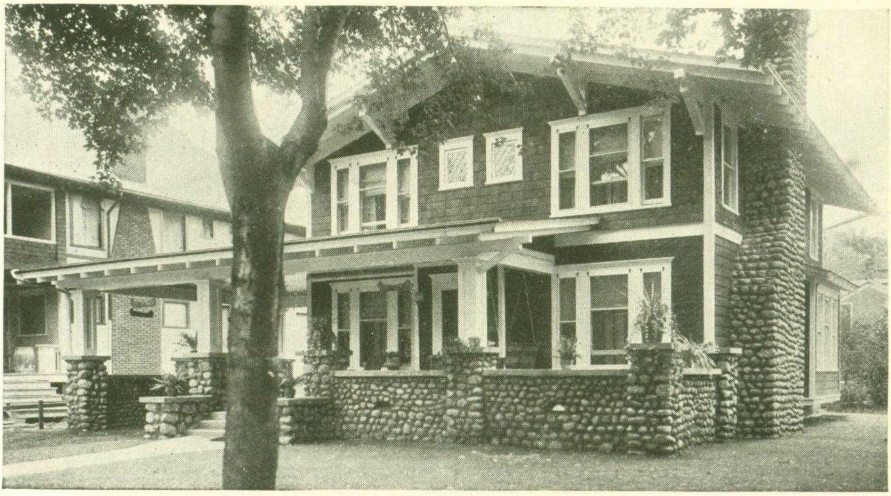
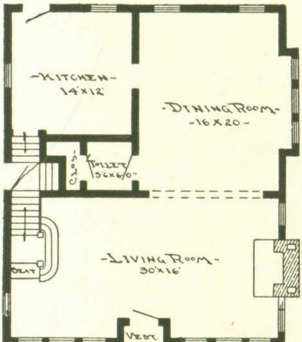
Second Floor Plan, The Amherst



THE MASSACHUSETTS

A DISTINCTLY original type following Swiss lines, yet this beautiful structure is perfectly adapted to modern ideas of what an American home should be. The Massachusetts is presented as one of our newest "Aladdins." The use of cobble stones is optional, as we regularly supply the built-up porch pedestals and rail of heavy timber and shingles. Wide siding is furnished for the first story and shingles for the second story. The roof has an overhang of four feet, supported by heavy-timber brackets. While the porch floor and railing extend across the front of the house, the porch roof ends under one window and projects over the opposite side, supported by heavy pedestals forming a porte cochere. The large bay window in dining room with built-in seat is an attractive feature. Note the floor plan. It shows living room 16 x 30 ft. with open stairway, built-in bookcase and square columns in arch, extra large dining room, kitchen, grade entrance, and up stairs is shown billiard room, three bed rooms, bath, and closets.



First Floor Plan, The Massachusetts

THE DUPLEX

THE "Aladdin" two-family house, The Duplex, is produced as the result of a large demand we have had for a double house. The double house has some very attractive features. It enables its owner to live in one part and secure a good rental from the other — and his return is consequently much greater than if he had built two separate houses. The Duplex is a big, strong, conveniently arranged house, and its completed cost will be several hundred dollars less than it could possibly be built for by any other method. Note the double front and back porches, with rear stairways.

SPECIFICATIONS

Size, 24 x 36 ft. Price, $1,210. Cash Discount, 5%. Net Price, $1,149.50. See Terms.

THE NORWAY

MORE character is shown in the design and arrangement of this two apartment house than is usually found in the general run. Big, strong eaves balance up the height, while the bay window on the front and inset porch with gable hood lend an air of refinement. The interior is wonderfully well planned, especially for a corner lot. Good sized rooms closely connected, plenty of closet space, two porches to each apartment will appeal strongly to particular tenants. As an investment this building will yield a handsome revenue on the cost.

SPECIFICATIONS

Size, 24 x 36 ft. Price, $1,655. Cash Discount, 5%. Net price, $1,572.25. See Terms.

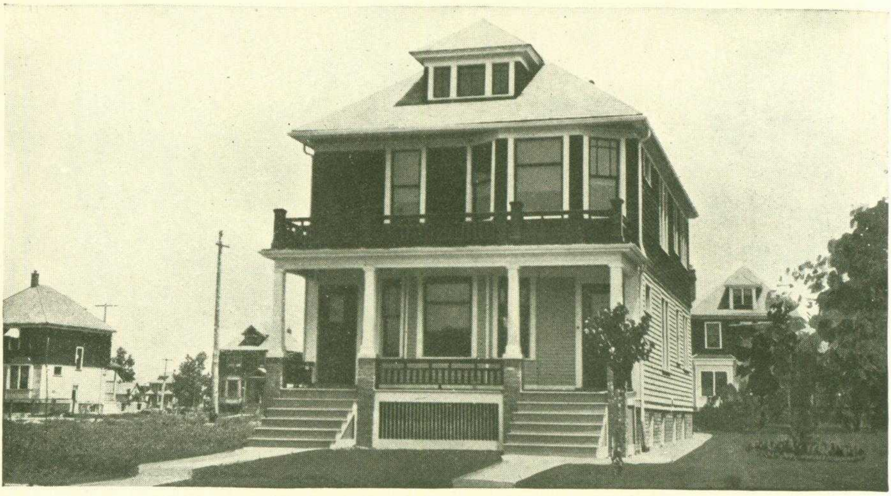
"Building trials disappear when you build an Aladdin Home"



THE OVERTON

EACH floor of this duplex house is so contrived that it is a complete and commodious home. About the only difference between the two floors is in the location of the bay window, which is placed in the center of the first floor front, to allow separate entrances. Both entrances have separate steps. These features are often preferred to single entrance by many tenants. Living rooms occupy full front except hall space. Then dining room, pantry, and kitchen extend along one side and two bedrooms with bath between them, on opposite side. Front and rear porches to both flats. Dormer window gives plenty of light in attic.

THE SUPERIOR

You will find this type of double house to be one of the most widely used of any in metropolitan cities. Its front is pleasing, dignified, and finished. The porch is of a type that can be utilized for a double decker, or divided below, as desired. Good sized rooms, well laid out for convenience, are arranged inside. Stairways are particularly well placed to avoid disturbing tenants. This building will save its owner from five hundred to one thousand dollars on cost — according to location.

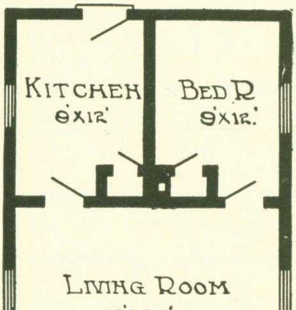
THE OGDEN

THIS is a very popular type of small dwelling in Los Angeles—simple in design yet with several distinctive features setting it above the usual small house in its appeal to the eye. Broad eaves and exposed rafter ends follow closely the well-known bungalow appearance. Porch with pergola of heavy beams, brackets for the eaves at front and back, and rustic siding of perpendicular boards and o. g. battens.

The interior has an excellent living room, size, 18 x 12 ft., bed room with closet and kitchen with pantry. Either paint for the exterior or stain will be furnished.



Floor Plan, The Ogden

SPECIFICATIONS

Size, 18 x 24 ft. Price, $348.00. Cash Discount, 5%.
Net Price, $330.60. See Terms.

All lumber selected Yellow Pine and Huron Pine.

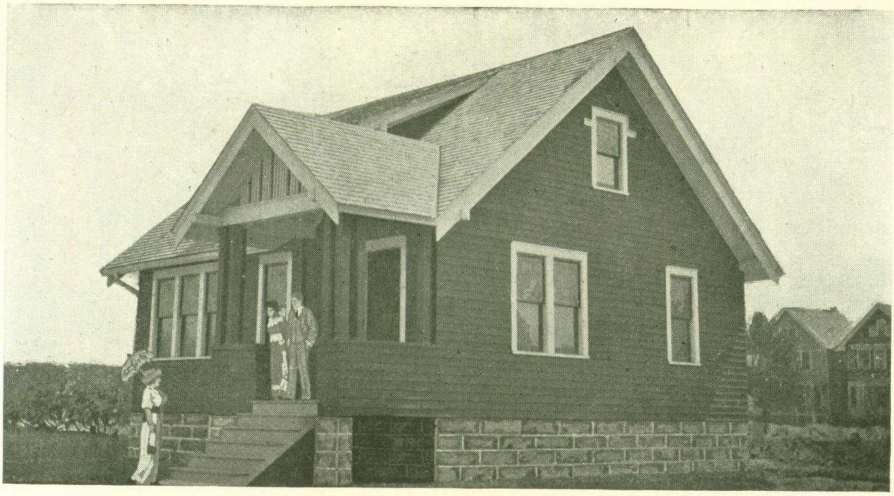
All ceilings, square, not hipped.
Joists, 2 x 6 in. Sill, 4 x 6 in.
Studding and rafters, 2 x 4 in.
Joists, studding and ceiling joist placed every 16 in.
Sheathing lumber. Flooring, 1-inch matched, 3 inches wide.
Siding, 1 x 12, with battens.
Roof, 1-inch lumber, overlaid with best prepared roofing or shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Windows, 30 x 28 in., two sliding sash, glass double strength.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass.
Porch columns, 4 in.
Front and rear steps.
Hardware, locks, hinges, knobs, nails, paint for two coats inside and outside.

We have been living in our Portland for five months now, and I can't begin to tell you how pleased we are with it.

Very truly yours,
MRS. W. R. BAUMBERGER,
West Virginia.



THE JACKSON

INDIVIDUALITY marks the design of this two-story bungalow. The gable roof porch, with groups of three square porch columns, split roof dormer, triple and double window groups, are each added to secure finish and harmony. Six rooms are shown in the floor plans, four down stairs, and two up stairs. Entrance may be had to basement underneath main stairs, or this space may be used for pantry. Arch is furnished between living room and dining room. Split roof dormer does not show very well in the picture, but floor plans indicate how well it lights the upper bed rooms.

SPECIFICATIONS

Size, 22 x 20 ft. Price, $630. Cash Discount, 5%. Net Price, $598.50. See Terms.

All lumber selected Yellow Pine, Red Cedar, and Huron Pine.

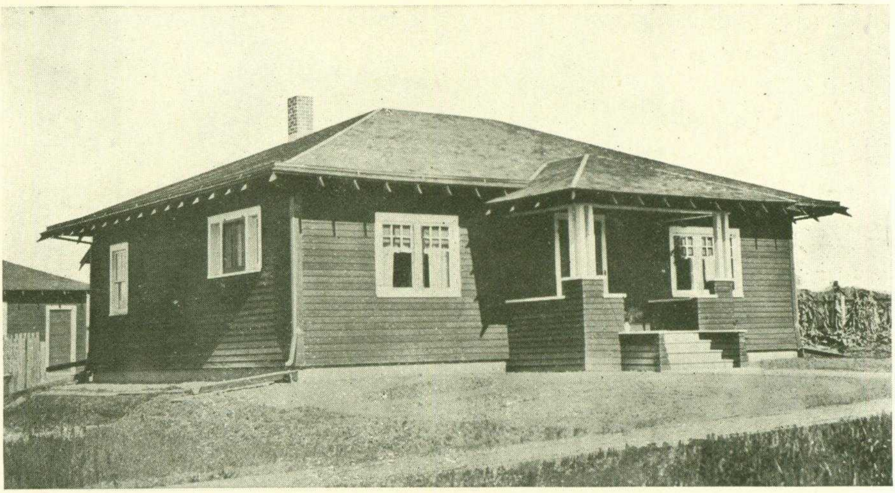
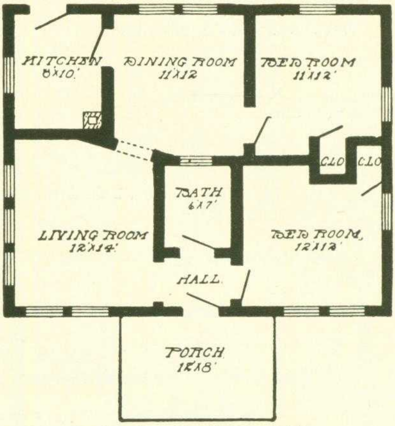
Second Floor Plan, The Jackson



THE MAPLES

THE Maples typifies the bungalow spirit. Low, flat lines, wide eaves, odd windows, exposed rafter ends and simple outlines. A really ideal arrangement is shown inside. Entrance hall leads directly into living room, front bed room or bath. This plan separates bath entrance from any of the rooms usually occupied. Light is furnished to bath through frosted glass window from dining room. This window is placed high. Corner arch leads from living room to dining room. All rooms but the dining room are corner rooms, with plenty of light and air in each. The dining room has attractive wide window. Five rooms with bath, hall, and porch. For Nos. 2 and 3 arrangement see floor plan, The Gretna.



The Maples, No. 1, 30 x 24 ft.

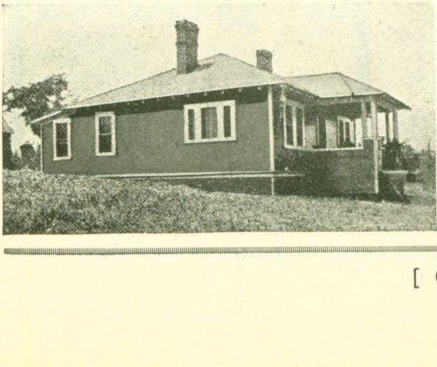
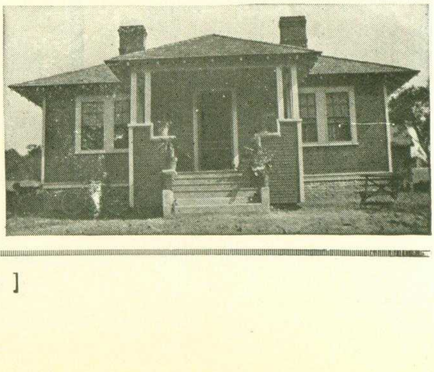
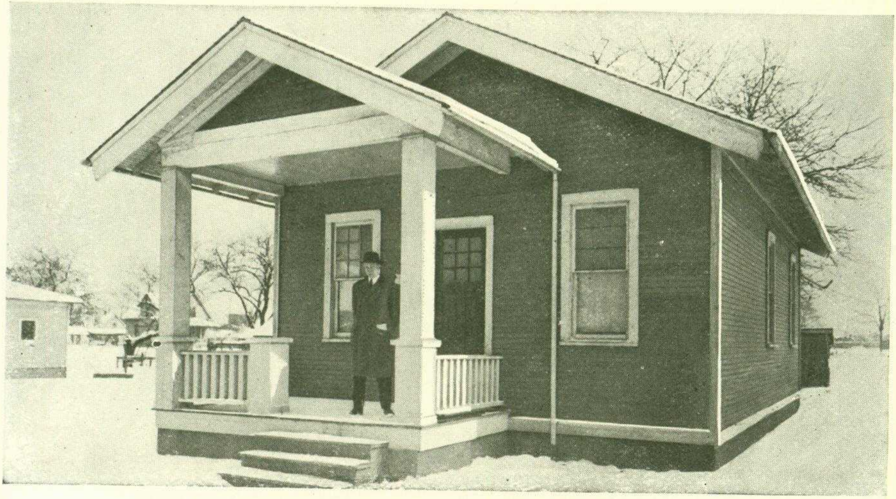
Porch columns, 6 in.
Front and rear steps.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.







THE JAMESBURG

THE Jamesburg is a quaint and distinctive type of bungalow. It is practically the same in size and arrangement as The Jersey, except that it has a few embellishments in exterior design. The rafter ends under the eaves are exposed and of fancy scrolled design. A group triple window is shown in living room. Gable roof porch lends a pleasing appearance to front of house. The front door is of special design, having long panels and square divided lights at top. The porch work, columns, railing, and balusters are all very heavy.

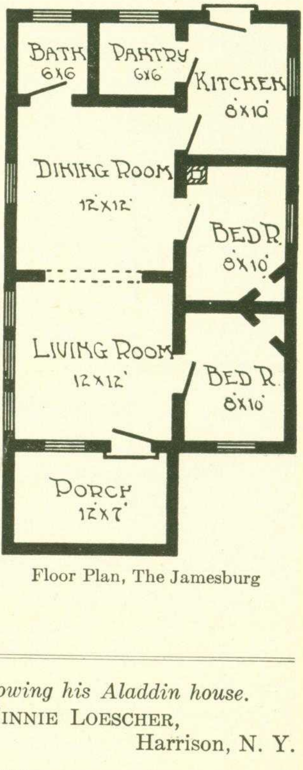
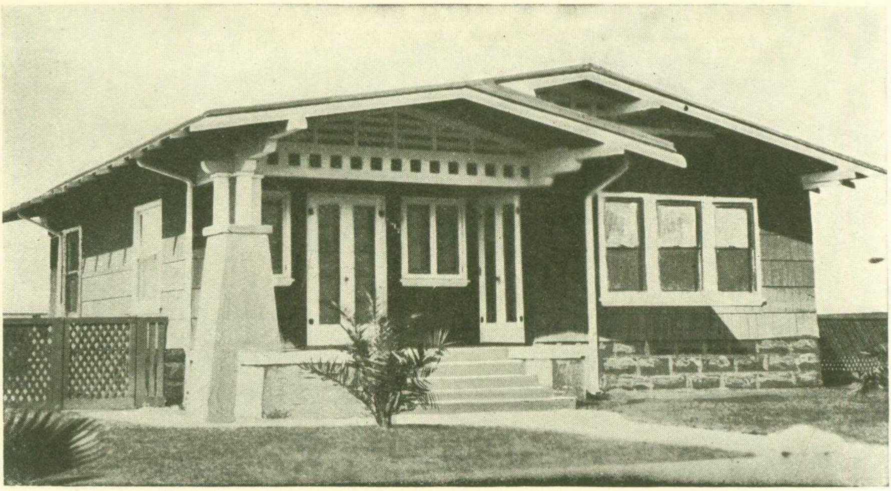
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and out.



Floor Plan, The Jamesburg

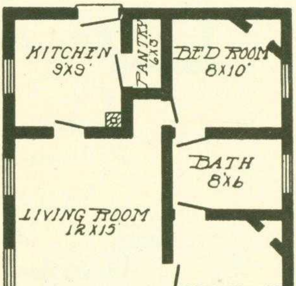
A woman takes pride in showing her jewels ; a man in showing his Aladdin house.

MINNIE LOESCHER,
Harrison, N. Y.



THE REDLANDS

THIS shingled bungalow is somewhat different in its exterior decorative ideas. The pyramidal column may be built of either brick, stone, or concrete (we do not furnish this). The combination living and dining room is necessary to this small type to secure two bed rooms and bath. Prepared roofing is practically necessary with this very flat type of bungalow roof. We include front porch floor and steps in price. Masonry not included. The roof line is broken to form the extension which is the porch roof. Front bed room is almost as well ventilated as any sleeping porch.



Floor Plan, The Redlands

SPECIFICATIONS

Size, 20 x 28 ft. Price, $796. Cash Discount, 5%.
Net Price, $756.20. See Terms.

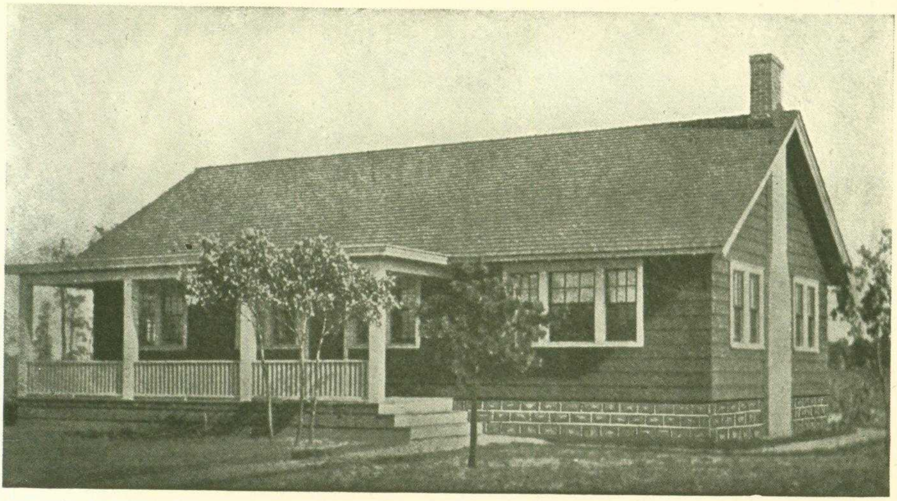
That which has no force in the beginning cannot gain strength through the lapse of time.
— OLD PROVERB.

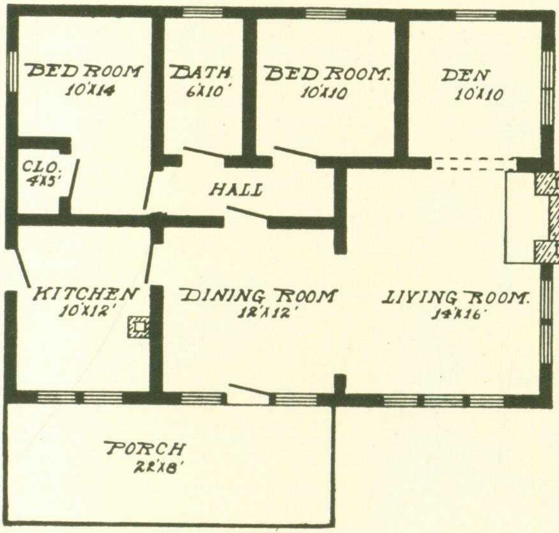
"*Reading the old proverb inversely — That which* HAS *strength in the beginning* WILL *gain strength through the lapse of time.*

"*The wonderful success of Aladdin houses could not possibly have been attained had there been no strength or real merit behind them.*"



THE ROYTON

WELL designed for a wide lot or where ground frontage is not too costly. A world of light is secured in the living room, there being a large triple group window in the front, light from the side with double windows and through the den. Dining room, kitchen, two bed rooms, bath, hall, and closets complete an excellent floor plan. The house is shingled on the exterior and has a simple, well-designed porch.



Floor Plan, The Royton

SPECIFICATIONS

Size, 36 x 26 ft. Price, $836. Cash Discount, 5%. Net Price, $794.20. See Terms.

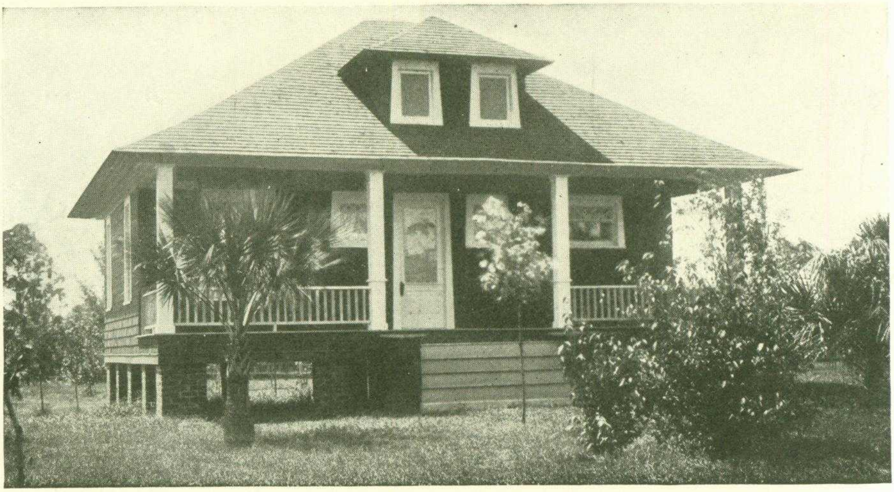
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.

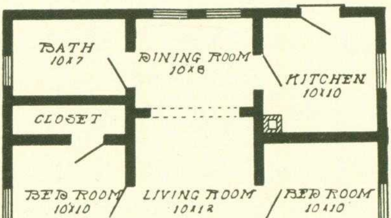
"Aladdin Houses appeal to the home-loving instinct"



THE DENVER

We believe you will agree with us in our assertion that The Denver is one of the prettiest little bungalows you ever saw. It is harmonious in outline, attractive to the eye, novel in design, and distinct in detail. Note the broad, sweeping roof lines, with flaring eaves. The outside window and door trim is broad at the base and tapers slightly toward the top. The entire exterior is shingled.

The Denver has two bed rooms, living room, dining room, bath room, kitchen, and closet. The living room is separated from the dining room by a very wide arch. While separating the two rooms, still they are so designed as to give the living room greater size than simply 10 x 12 ft.



Floor Plan, The Denver

SPECIFICATIONS

Size, 30 x 28 ft. Price, $790. Cash Discount, 5%.
Net Price, $750.50.
See Terms.

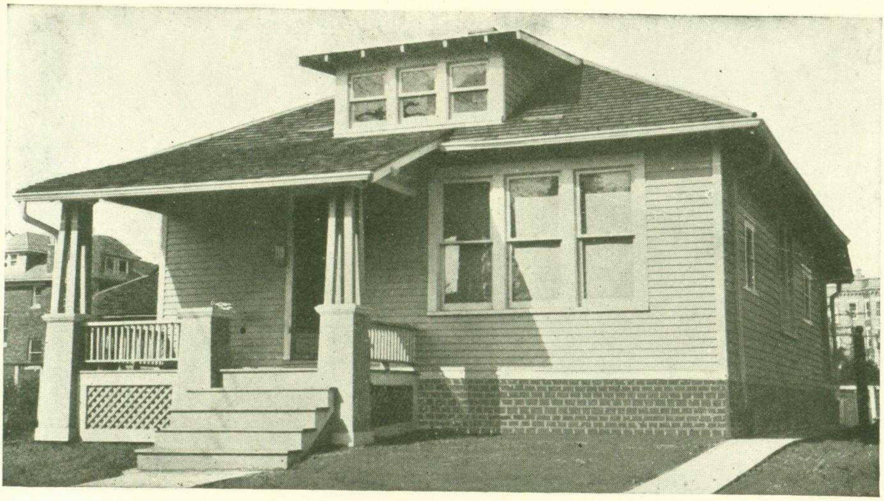
Sill, 6 x 8 in.
Joist, 2 x 8 in. Studding, ceiling joist, and rafters, 2 x 4 in.
Joists, studding and ceiling joist placed every 16 in.
Flooring, 1-inch matched, 3 inches wide. Sheathing and shingles for all sides.
Roof, 1-inch lumber, overlaid with shingles.
Patent plaster board or lath and plaster.
Base board and all interior trim and finish clear Yellow Pine.
Windows, sash, 30 x 32 in., two sliding sash, glass double strength, also special sizes.
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, special design.
Porch columns, square, with railing.
Front and rear steps.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.

My son and I put up this house and we have never worked at the trade, so, of course, we could not get along as fast as men with experience, but we got along fine. Everything went together fine. We are well pleased with the house.

M. L. Lauck,
R. F. D. No. 3, Spencer, Iowa.



THE WARREN

The Warren is a little different from the ordinary and will appeal to folks who like something to attract the eye without being undignified. Porch columns in pyramidal groups support the porch roof which joins the main roof. They rest upon strong columns, making an excellent porch plan. The interior has vestibule hall with good-sized rooms throughout. At the price quoted this house will save its owner four or five hundred dollars and give the highest satisfaction.

SPECIFICATIONS

Size, 24 x 32 ft. (exclusive of porch). Price, $790. Cash Discount, 5%. Net Price, $750.50. See Terms.
All lumber selected Yellow Pine, Red Cedar, and Huron Pine.
Height of ceilings, 9 ft.
Sill, 6 x 8 in.

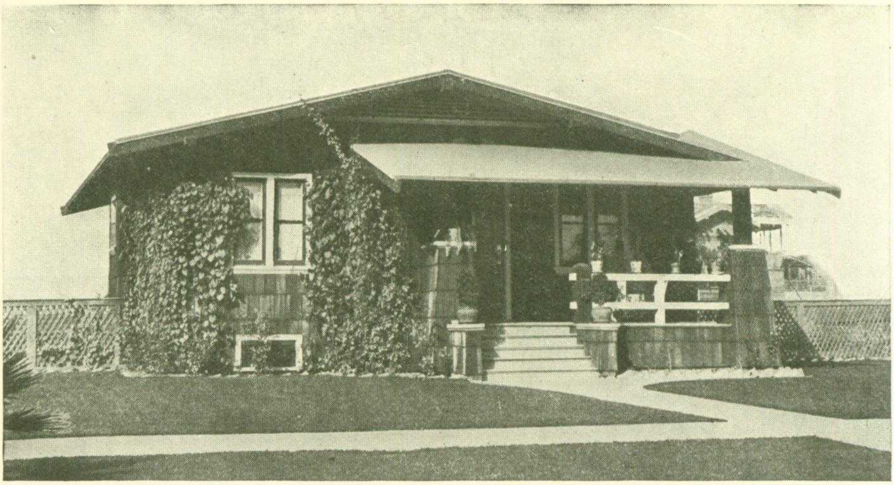
Floor Plan, The Warren

WYOMING, DEL.

I have worked at the trade for twenty years and never saw any building go together nicer. We didn't have any cutting to do; every piece went to its place, and you sent a very good quality of lumber and plenty of it to finish the house. Saved about $300.

GEORGE PYOTT.



THE LAKEVIEW

A LITTLE beauty that seems to expand when you get inside. Plenty of space for average family. Owing to ell house gives appearance of being much larger and wider than it really is. Living room has corner-seat fronting fireplace, making quaint nook. Two bed rooms, each has closet. Main roof-line raised over living room in an ell that runs down in front to cover porch. Side walls shingle, same as porch pillars. Railing extends through post, mission style, a very distinctive feature.

SPECIFICATIONS

Size, 24 x 32 ft. Price, $890. Cash Discount, 5%. Net Price, $845.50. See Terms.

All lumber selected Yellow Pine, Red Cedar, and Huron Pine.

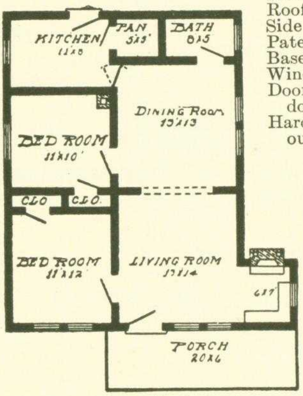
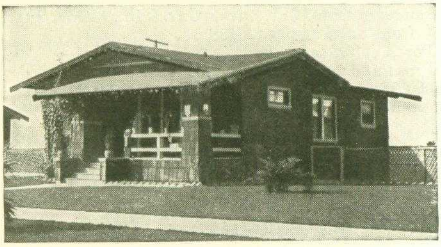
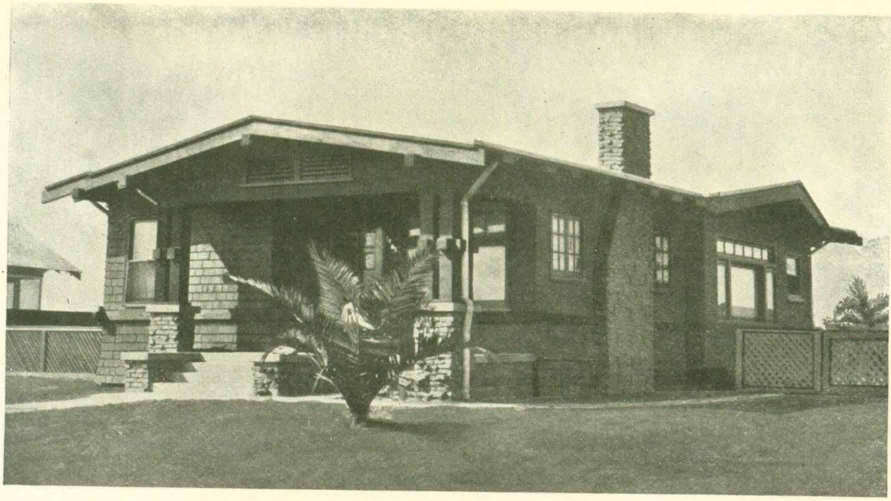
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.



Floor Plan, The Lakeview

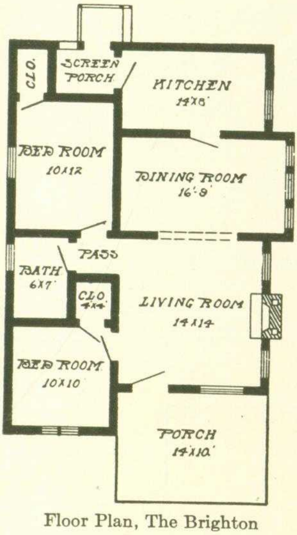


"Why pay rent; buy an Aladdin and be content"



THE BRIGHTON

A BUNGALOW designed for points facing strong winds, on ocean shores, but pretty enough for any location. Porch pillars support double wooden columns. Frontal line of porch flush, affords plenty of shade. Ventilation under roof. Wide stone fireplace in living room. Screen porch in back. Large dining room has paneled window for plenty of light. Roof line raised over this window. Shingle side walls. Masonry not furnished. This is a very compact bungalow, and at the same time is roomy and comfortable.



Floor Plan, The Brighton

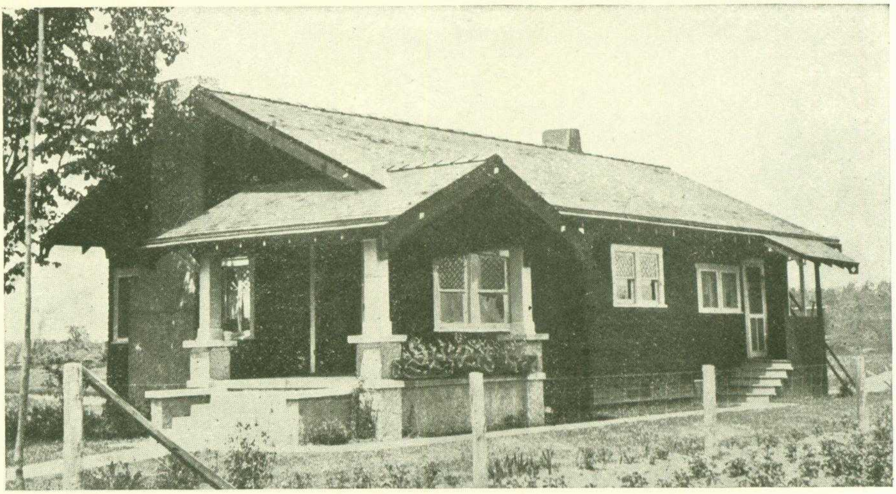
FRANKLIN, PA., July 20, 1913.

Gentlemen :

My father and I just put up your Gretna cottage at Lakewood, N. Y., and find the material far superior to any that we could have bought in this part of the country, and we saved money by building your cottage.

ROY E. DENISON.



THE CARROLTON

IF you like bungalows you will certainly fall in love with this one. The first glance draws you to it and the more you see of it and learn about it the better it is. Examine every detail of the design, both outside and inside. You will find the utmost care has been used to perfect conveniences. An especially desirable feature is the roomy, airy kitchen with rear porch. The living room has light and air on three sides. Originality is displayed in the design of the porch. Roomy dining room, two bed rooms, closets, bath, and hall complete this charming home.

SPECIFICATIONS

Size, 24 x 42 ft. (exclusive of porch). Price, $1,047.

THE WINTHROP

PLENTY of light! Plenty of air! Cosy, compact, and convenient. All these combined make The Winthrop an ideal type for a small family bungalow. The screened porch and grade and cellar entrance off the kitchen will save many steps for the housekeeper, and the bay window in the dining room makes it a cheerful, sunny room. As originally designed, the outside walls of The Winthrop are shingled, but siding can be substituted if desired. Certainly, no more attractively designed and conveniently arranged bungalow could possibly be built than The Winthrop. Masonry not included.

THE SHERMAN

LIVING room, dining room, kitchen, pantry, three bed rooms, bath, and closet are shown in the plan of this desirable bungalow. The living room is square and of good dimensions, with arch leading to dining room. Attractive group windows are furnished for living room. The arrangement of the several rooms is very convenient and handy. Divided square lights are furnished for upper sash of all windows, although they will be furnished with single large glass if preferred. Eaves line extends and ends in exposed scrolled rafters. Porch and step rails are shingled.

THE TEXAS

The porch of the Texas is somewhat different from most of our other designs. It commends itself as a protection from wind, rain, and sun, and is especially appreciated in locations that are more or less exposed to these elements. In the arrangement of rooms, we have found this type especially popular. The grouping of windows as shown above lends much to its attractiveness. Rear end of living room is practically all one big window. Split roof dormer aids in giving air to attic space.

SPECIFICATIONS

Size, 36 x 28 ft. Price, $1,041. Cash Discount, 5%. Net Price, $988.95. See Terms.

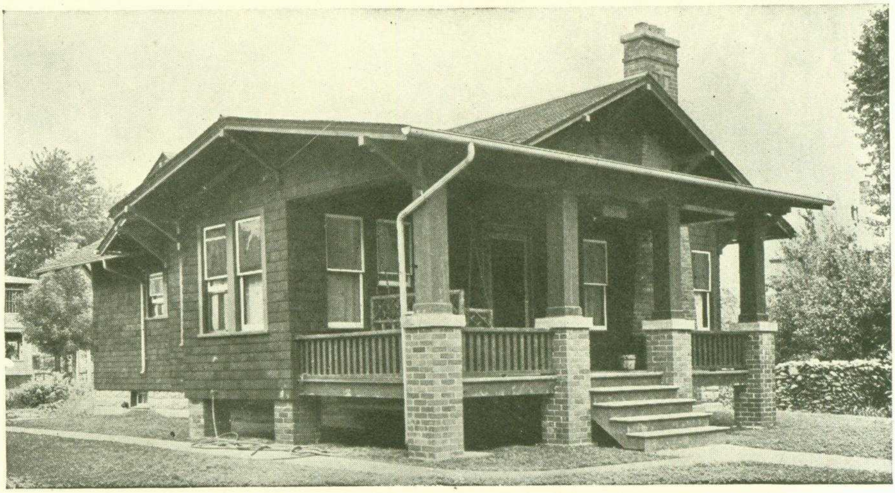
Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, special design oak, 3 ft. x 7 ft.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.

Dear Sirs: MAYBROOK, N. Y., July 21, 1913.

I sent you a photograph of my house, The Huron, which I received from you. The place cost me $1,465.65, *that is, building lot, foundation, concrete walks, trees, and house all complete as you see it in the photographs, and I have refused* $2,000 *for it.*

Yours very truly,

W. P. MISNER.



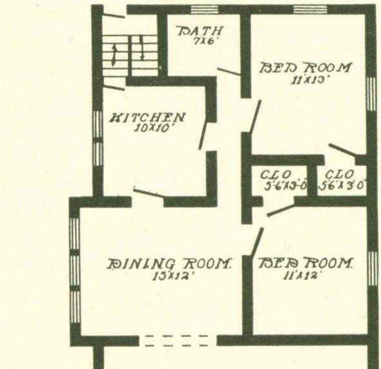
THE MELROSE

ORIGINAL ideas are embodied in the design of this real bungalow. Not only are the rooms all well proportioned but they are exceptionally well arranged for convenience, light, and comfort. One of the most desirable things in this design is the loggia or sun parlor. This makes a delightful sewing room and reading room. Plenty of wall space is secured in the living room for davenport or piano. French doors divide living room from loggia. Arch separates living room and dining room. Two good bed rooms, each with closet, are shown. Cellar entrance and rear door are in just the right location, while bath is next to kitchen and reached from hall. The exterior is shingled all over.

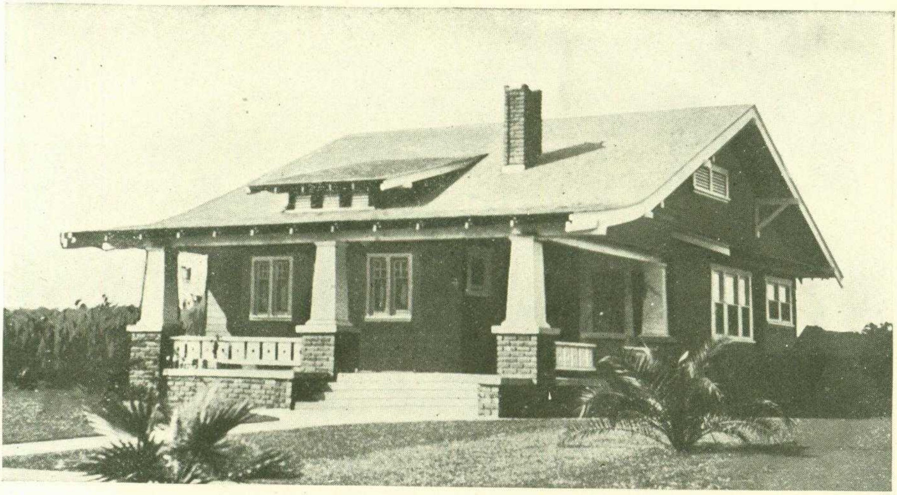
SPECIFICATIONS

Size, 24 x 40 ft. (exclusive of porch). Price, $1,246. Cash Discount, 5%. Net Price, $1,183.70. See Terms.

All lumber selected Yellow Pine, Red Cedar, and Huron Pine. Height of ceilings, 9 ft. Sill, 6 x 8 in. Joists 2 x 8 in. Studding, rafters, and ceiling joists, 2 x 4 in. Joists, ceiling joist and studding placed every 16 in. Flooring, 1-inch matched, 3 inches wide. Side walls, sheathing lumber and shingles. Roof, 1-inch lumber, overlaid with best prepared roofing or shingles. Patent plaster board or lath and plaster. Base board and all interior trim and finish clear Yellow Pine. Windows, sash, 30 x 32 in., two sliding sash, glass double strength. Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, special design oak. Front door, 3 ft. x 7 ft. Hardware, locks, hinges, knobs, nails, paint for two coats inside and outside.



Floor Plan, The Melrose



THE RAVENSWOOD

SUBURBAN home type, trim, and beautiful without being expensive. Brick porch has three pillars topped with coping stones, on which rest wood columns carrying roof. Latter has exposed rafters. Long front roof extends to cover porch. The dormer window also has exposed rafters to match main roof. Inside very conveniently arranged, and every room has double windows; dining room bay a group of three windows. Masonry not furnished. Bath room and bed room open on passage.

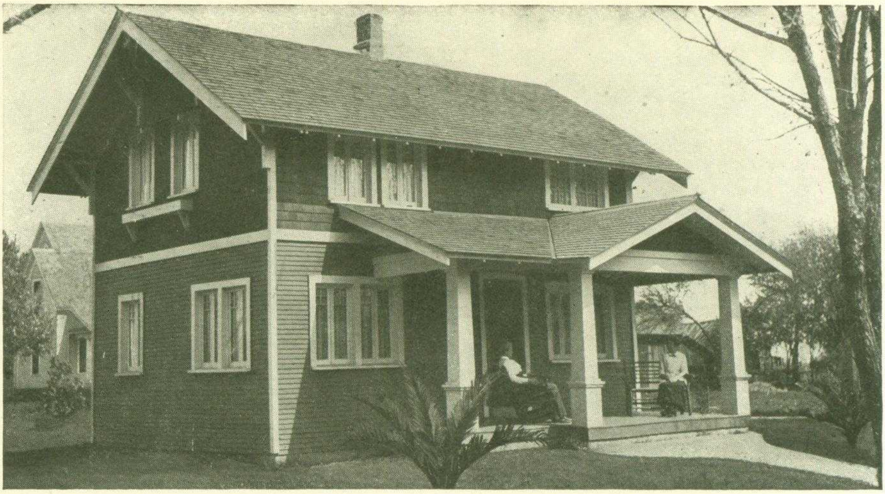
Floor Plan, The Ravenswood



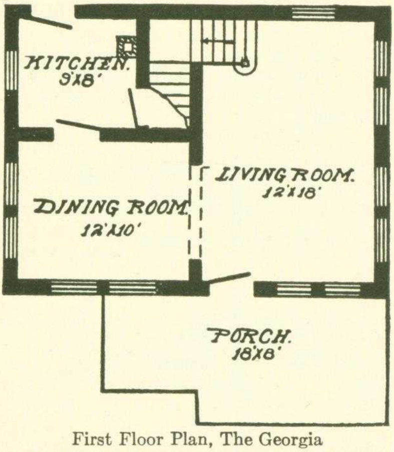
THE GEORGIA No. 1

You will recognize in this a pretty half-shingled type of two-story bungalow with a few unusual ornamentations. It is difficult to imagine a more pleasing arrangement of group windows, bracketed hoods over second-story windows, roof lines, large commodious porch, with square porch columns. The interior offers the ever-popular large living room and open stairway, and there is a room for every necessity. The Georgia is one of our newer designs and is proving to be a great seller.

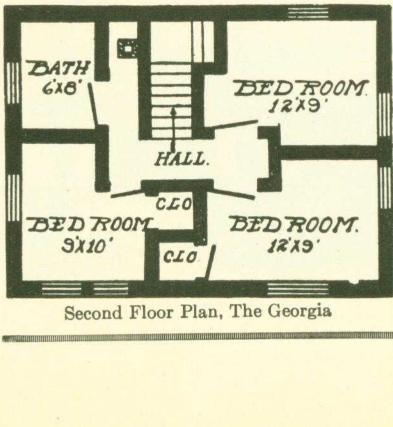
SPECIFICATIONS

Size, 24 x 18 ft. Price, $839. Cash Discount, 5%. Net Price, $797.05. See Terms.

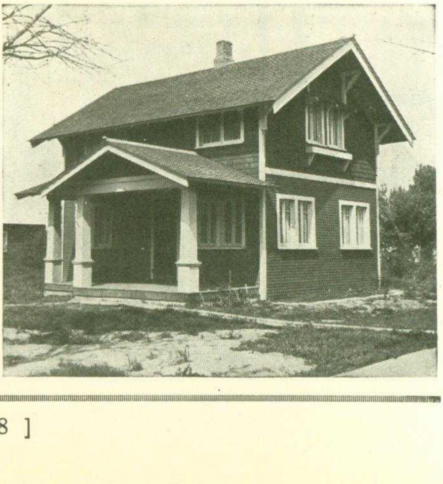
Joists, 2 x 8 in. down and 2 x 6 in. up stairs. Joists, ceiling joist and studding placed every 16 in. Sheathing lumber. Flooring, $\frac{7}{8}$-in., 3 inches wide. Patent plaster board or lath and plaster. Bevel siding first story, shingles second story. Base board and all interior finish clear Yellow Pine. Window casements, double-strength glass. Doors, outside, 2 ft. 8 in. x 6 ft. 8 in., inside, 2 ft. 8 in. x 6 ft. 8 in.; front door, upper half glass. All hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside. Complete instructions and illustrations for erecting.

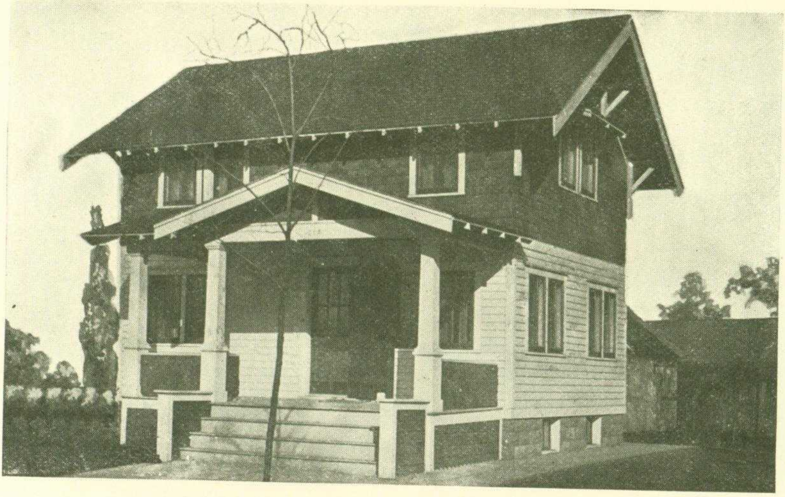


First Floor Plan, The Georgia



Second Floor Plan, The Georgia





THE GEORGIA No. 2

THE half-shingled type is certainly very popular. In this design the idea has reached the highest point of artistic development. The charm of the casement window is ever present. The casements which form a part of The Georgia are true to the best type. Clean lines distinguish this cozy home. The interior plan appeals at once to the observing, especially in the large amount of light which floods all rooms. In the living room, light is admitted from three sides. This home will do credit to its owner in any surroundings. The pedestals at side of front steps not included.

SPECIFICATIONS

Size, 26 x 20 ft. Price, $940. Cash Discount, 5%. Net Price, $893. See Terms.
All lumber selected Yellow Pine, Red Cedar, and Huron Pine.

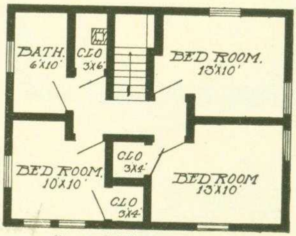
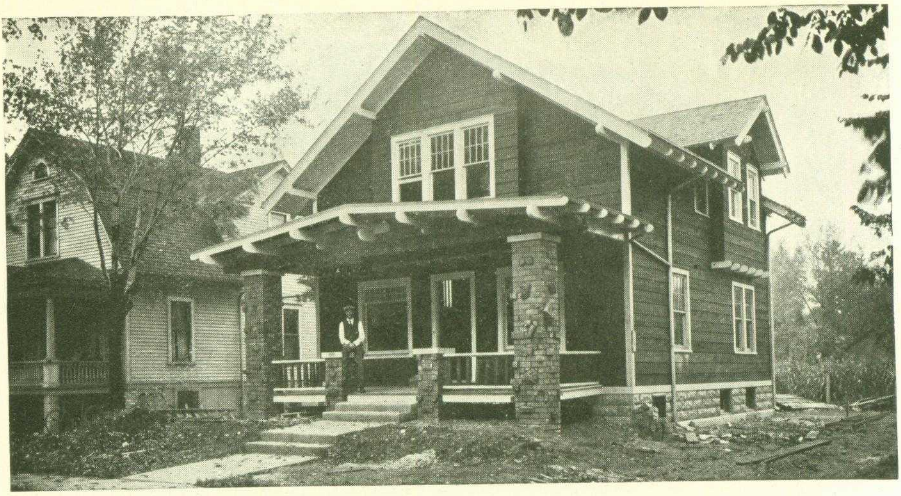
Complete instructions and illustrations for erecting.



Second Floor Plan, The Georgia No. 2

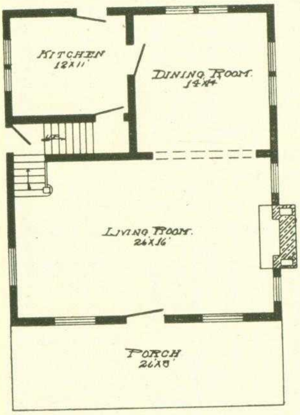
I am just finishing the bungalow I bought of you last spring. I did most of the work myself whenever I could spare the time. We like it very much. The lumber was fine and everything went together in fine shape.

F. BILKEY, Montana.



THE ROMEO

A MODERN, homey type, with massive stone columns fronting porch; stone fireplace of ample width for wood-logs in one end of mammoth living room. The porch extends across entire front; has two wide windows in front, and a third in end opposite fireplace. Double windows in dining room. Door on stair landing opens onto Romeo balcony. Up stairs, large front bed room has two clothes closets; other bed rooms each have clothes closets. Very large bath room. Wide overhanging eaves have broken roof line to add to attractiveness. Masonry not included.



First Floor Plan, The Romeo

THE MARSDEN

THIS pretty bungalow, of six rooms, is designed in excellent style and the plan commends itself for its compactness and to give all the room possible for its cost. The living room is 26 x 16 ft. This room is separated from the dining room by an attractive arch. The dining room has a large deep bay window, arranged to allow a buffet underneath. There are three good-sized chambers with bath room between and directly connecting them to inside hall. Generous closet room has been provided. The grade cellar entrance is another convenient feature.

The Marsden is without question the most complete, convenient, and attractive design that we are showing.

SPECIFICATIONS

Size, 26 x 38 ft. Price, $1,412. Cash Discount, 5%. Net Price, $1,341.40. See Terms.

THE NEWPORT

WITH 52-FOOT PORCH

EVERY feature that is demanded in a high-class residence is incorporated in this handsome structure. Air and freedom, comfort and convenience — these were the points sought after and attained in the design. A 52-foot porch — 16 ft. deep at the ends.

A great, airy living room — 14 ft. wide and 22 ft. deep, good dining room, kitchen, hall, and cloak closet complete the first floor, there being three bed rooms and bath up stairs.

SPECIFICATIONS

THE PLAZA

This magnificent bungalow secures its inspiration from one of the best-known bungalows in Pasadena, California. The roof lines are well handled, while a very desirable feature will be noted in the porch that extends two-thirds across the front and down the side. Note the pergola roof over the rear section of the porch. The interior is wonderfully arranged, giving three bed rooms, each with closet, and large living room, dining room, and kitchen. The attractions of a dainty breakfast room are most appreciated by the housewife who has had this decided convenience. Built-in buffet is included in the price. Masonry not included.

SPECIFICATIONS

Size, 36 x 44 ft. Price, $1,578. Cash Discount, 5%. Net Price, $1,499.10. See Terms.

The North American Construction Company has secured special permission from the Good Housekeeping Magazine to use the FIRST PRIZE BUNGALOW DESIGN in the bungalow contest conducted by this magazine.

ENTRIES for the contest were received from every section of the country, over one thousand designs being submitted. These designs were submitted to a committee of experts.

In making a choice among this great number of designs, the committee took into consideration, not only the appearance but every feature of convenience, arrangement, economy, and architectural beauty.

Announcement was made in the April issue, and the design presented here was selected as being the best of the thousand designs.

We immediately sought and secured permission to add this design to our large number of Aladdin Houses and we are now manufacturing it complete and exactly as it was reproduced. We have not changed a single feature, even including the pergola and garage, which form a part of the design and include everything in this remarkably low price. It is one of the most popular designs we have ever secured.

We were particularly fortunate in securing permission from *Good Housekeeping Magazine*, as ordinarily it is impossible for a manufacturer to secure a permission of this kind from any of the high-class publications.

DESCRIPTION OF ALADDIN PRIZE BUNGALOW

CAREFUL examination and study of the interior and exterior of the prize bungalow must convince you that it incorporates the most modern ideas of comfort, convenience, and design. Note the two pictures on these pages showing the casement windows with transom and divided lights.

The door from the living room onto the veranda has full-length glass panels corresponding to the French door itself.

This not only gives the living room an unusual amount of light but is a charming feature of the design itself.

The dormer windows in the roof give light and space to the second story and break the expanse of the roof.

The pergola, extending from the veranda covers the lane entrance, while the longer pergola at the rear affords a vine-covered walk to the garage and is a most attractive feature of the decorative plan.

The living room has beamed ceilings with convenient entrances to both the dining room and a small hall, which leads four ways, to the bath room, to each bed room, and the kitchen.

A cloak closet sets off from this hall besides the stairway. Entrance to the cellar is obtained from the kitchen under the main stairway, and roomy pantry divides the kitchen and dining room. The dining room is very light, having a group of three windows at the end, two windows at the rear, and a French door leading to the porch.

One closet is afforded each bed room down stairs, while up stairs a sewing room and a spare room with plenty of closets and space are arranged.

The price we make here includes everything as stated in the specifications below. Includes both pergola and garage at the rear, size, 16 x 24 ft.

SPECIFICATIONS

Prize bungalow includes bungalow and garage, size, 16 x 24 ft. Price, $1,870. Cash Discount, 5%. Net Price, $1,776.50. See Terms.

All lumber is selected Yellow Pine, Red Cedar, and Huron Pine.

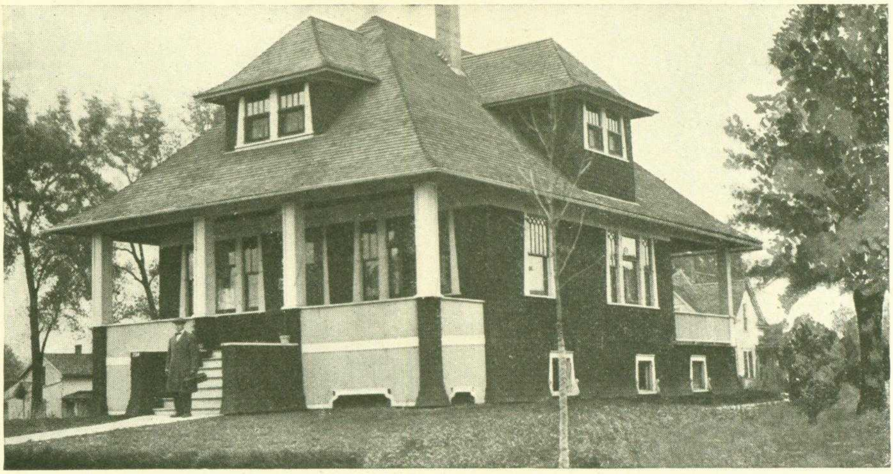
Special designed Oak outside door. Inside doors, 2 ft. 8 in. x 6 ft. 8 in.
Porch columns and pergola columns, turned with cap and base.
Hardware, locks, hinges, knobs, nails, and paint for two coats inside and outside.



THE ALBANY

SEVERAL strikingly distinctive features will be noticed in the design of this handsome bungalow, The Albany. It is of a similar type to our Denver. Notice the construction of the porch railing—different. The exterior window and door trim tapers toward the top, the porch pillars are square and paneled, the dormer windows in roof give light and room to up-stairs bed rooms. All side walls and roof are shingled.

ADDITIONS TO ALADDIN HOUSES

The additions shown on this page were designed to meet the demands which we have had in the past for additions to our dwelling houses. Several different designs are shown so the purchaser may select one that will be adapted to his requirements.

Design No. 1 to No. 6 can be used as a kitchen with pantry or as an extra bed room, as desired, or will be very well adapted for an entryway with either pantry or bath.

Design No. 7 to No. 9 has an enclosed part which is suitable for a pantry or bath, and has an open porch.

Design No. 10 to No. 12 gives you an enclosed part for pantry or bath, grade cellar entrance, inside stairs leading from the kitchen, and a commodious porch. Cellar, stairs, and steps leading from the kitchen included in the price.

Design No. 14 is a simple, enclosed, rear entrance with cellar stairs. It can, of course, be attached to any house.

The exterior finish of these additions will be furnished to harmonize with the appearance of the house selected without extra cost, and gives the prices with and without plaster board or lath and plaster and interior finish of the enclosed part.

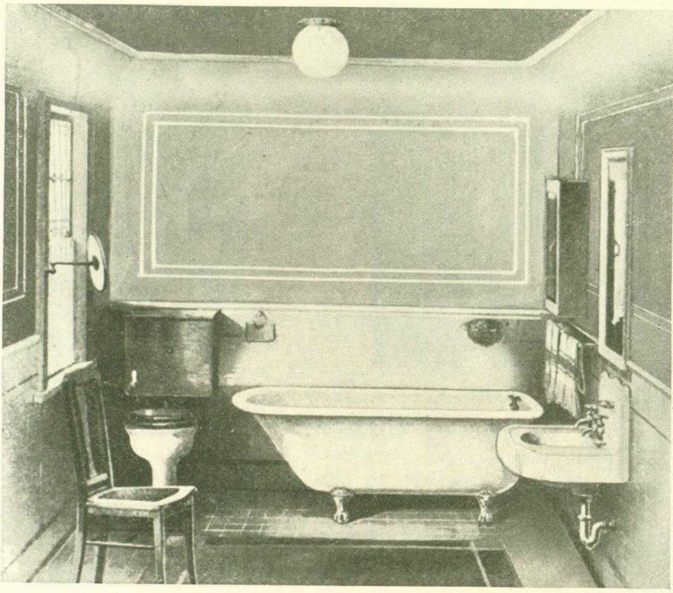
MODERN BATH ROOM OUTFITS OUR CRYSTAL GROUP FOR $37.50



THIS SHOWS A BATH ROOM ARRANGED WITH ONE OF OUR 3-PIECE CRYSTAL BATH ROOM GROUPS

THE OUTFIT. A five-foot porcelain-lined cast-iron bath tub, porcelain-lined lavatory with five-inch apron, and a Syphon wash-down closet combination, constitutes this outfit **Each piece being fitted with nickel-plated trimmings** to the floor, and every article is guaranteed to be A-Grade and perfect in every respect.

THE TUB is five-foot, cast-iron, made on roomy, **graceful lines** with a three-inch roll rim It is white porcelain enamel lined Is fitted with a nickel-plated connected waste and overflow, No 4½ Fuller Bath Cocks for hot and cold water and a pair of nickel-plated supply pipes In fact, **all fittings to the floor.** The tub is guaranteed to be A-Grade, and all fittings are heavily nickel-plated and highly polished.

THE LAVATORY is 18 x 21 in., cast iron, **white porcelain, enamel lined.** Has an 8-in back with double-wave top and a 5-in apron. The bowl proper is "D" pattern, 10 x 14 in. The fittings are all **heavily nickel-plated** and are the very best obtainable. They consist of two brass nickel-plated compression basin cocks **with china tops**, one marked "hot" and the other marked "cold": one nickel-plated trap with waste to the wall and two brass nickel-plated supply pipes to the wall, a very attractive appearing lavatory.

THE CLOSET has a highly polished oak tank and seat, tank being fitted with push lever flush valve and has a rubber ball valve. The bowl is **vitreous porcelain** ware of the Syphon action wash-down style. All trimmings, including nickel-plated supply pipes and nickel-plated elbow and screws, are furnished. The outfit, in all, is one which would sell regularly at about $65 We furnish **everything complete to the floor** as described. If you wish pipe, fittings, etc., with which to install this, send us a diagram of your house, giving all measurements, and we will be pleased to quote you.

It would be impossible for us to get a photograph of a bath room in which the arrangement would be just right to show each fixture in this outfit in such a way as to convey to you how really good an outfit we are offering.

For your information we call your attention to the fact that this outfit consists of our **Tub** No. 3A-162, with fittings as described in our Plumbing Catalog. **Closet** No. 3A-200, finished in either Golden Oak or Mahogany. Golden Oak is always sent unless otherwise specified. **Lavatory** No. 3A-262.

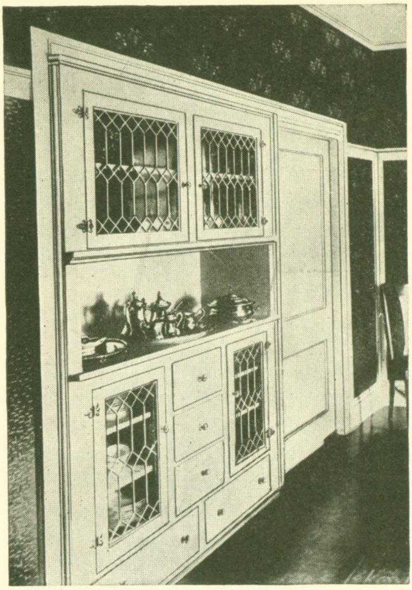
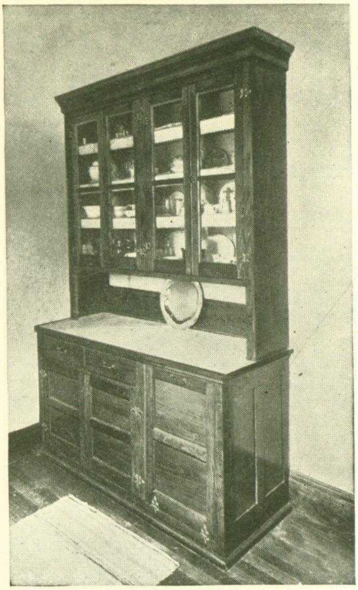
Above outfit with all connections threaded for iron pipe $1.50 additional



Aladdin Buffet



Aladdin Kitchen Cabinet

ALADDIN BUILT-IN FIXTURES

As a decorative feature, at once dignified and attractive, the columned arch, or combination arch and bookcase, has become decidedly popular. It conforms to the woodwork and becomes an integral part of the home. The several designs shown here will be furnished to fit any size arch. The stock from which they are made is of the very finest to be had. They are all carefully machined and finished, and will please you in every respect.

Any of these features can be installed when house is being erected, or at any later time, after house is completed.

We show a buffet, a kitchen cabinet, arches, and a chest of drawers

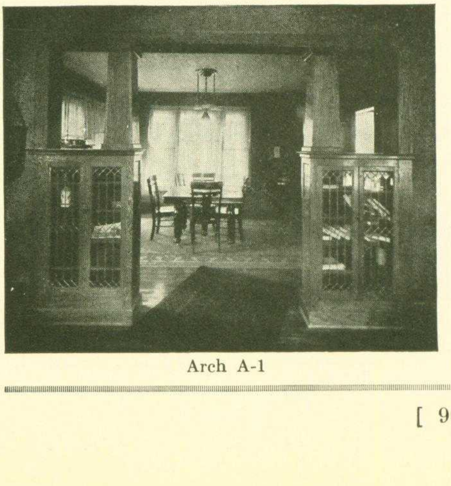
ALADDIN BUFFET

The photograph on this page shows the buffet in yellow pine with the white enamel finish conforming to the white woodwork of this particular room. This buffet is very roomy, having four sets of shelves with divided light glass door for each section and five drawers for linen and silver. The two drawers at the bottom are especially large for use as tablecloth receptacles. Aladdin Buffet, size 4 ft. 6 in. by 7 ft. high by 1 ft. 6 in. deep, ... $33.00

ALADDIN KITCHEN CABINET

Has flour bin, two cutlery drawers, two paneled doors with shelves below, and four glass doors. One of the best and most compact cabinets ever designed.

Size, 5 ft. 6 in. long, 7 ft. high, 18 in. deep at shelf Price, ... $27.50



Arch A-1

ARCH A-1

This arch incorporates the bookcase and short columns. Shelves in the cases are removable and adjustable to different heights. The doors are furnished with divided glass of diamond-shaped divisions. Price includes hardware fittings of burnished copper or brushed brass finish.

Arch No. A-1—two cases, ... $37.50

ALADDIN CLOSET CHEST OR KITCHEN CABINET

Size No. 1, 3 ft. 6 in. wide by 3 ft. high by 1 ft. 6 in. deep. Price, . $12.60

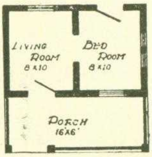
SUMMER COTTAGES

SUMMER COTTAGES, GARAGES, HARDWARE, HEATING, PLUMBING, AND LIGHTING FIXTURES

A SPECIAL Aladdin catalog is devoted to Summer Cottages and Garages. Many sizes of practical Summer Cottages are shown and the prices will astonish you. If interested, ask for Summer Cottage Catalog.

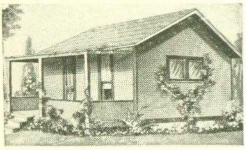


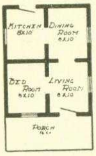
LIVING ROOM 8x10
BED ROOM 8x10
PORCH 16'x6'

THE ASBURY

Size, 16 x 16 ft. Price, $152. Cash Discount, 5%.
Net Price, $144.40. See Terms.

The Asbury is a cosy little summer cottage of pleasing lines—built for two. The porch can be screened in to give an outdoor living room. The front door has glass in the upper portion, giving additional light to the living room.



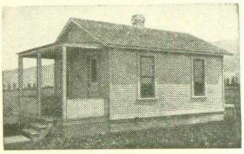


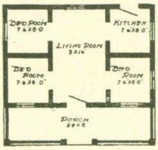
KITCHEN 8x10'
DINING ROOM 8x10
BED ROOM 8x10
LIVING ROOM 8x10
PORCH

THE DRAYTON

Size, 16 x 26 ft. Price, $209. Cash Discount, 5%.
Net Price, $198.55. See Terms.

The Drayton sells for less than $200. When you consider that this price includes absolutely everything needed for the erection and completion of the entire building you will appreciate the surprising price.



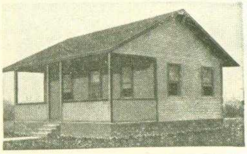


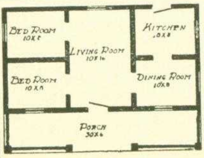
BED ROOM 7'6"x8'0"
KITCHEN 7'6"x8'0"
LIVING ROOM
BED ROOM 7'6"x8'0"
BED ROOM 7'6"x8'0"
PORCH

THE BETCONE

Size, 24 x 24 ft. Price, $280. Cash Discount, 5%.
Net Price, $266. See Terms.

The plan of The Betcone is a five-room cottage with ample porch. The three bed rooms are plenty large enough for a double bed in each. The living room is also used as a dining room. Kitchen with rear door is at rear.



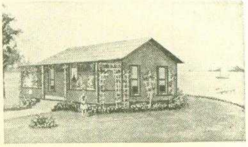


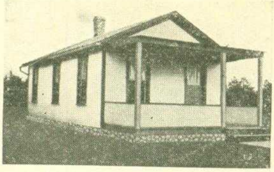
BED ROOM 10x8
KITCHEN 10x8
LIVING ROOM 10x16
BED ROOM 10x8
DINING ROOM 10x8
PORCH 30x6

THE GENESEE

Size, 22 x 30 ft. Price, $312. Cash Discount, 5%. Net Price, $296.40. See Terms.

Wherever erected, this cottage has had the most favorable comment. You will save at least $150 in purchasing this material, and at the same time have as strongly built house as is ever erected for summer cottage purposes.

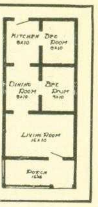


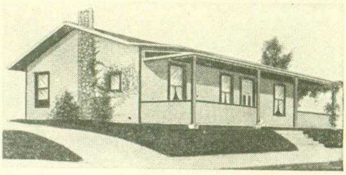


THE SHOREVIEW

Size, 16 x 36 ft. Price, $295. Cash Discount, 5%. Net Price, $275.25. See Terms.

The Shoreview is a comfortable summer home of five rooms. A good 10 x 16-ft. living room is located at the front. Behind the living room are two bed rooms, dining room, and kitchen, making a most complete floor plan with the porch across the front.

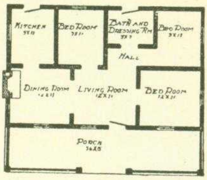




THE SHASTA

Size, 30 x 36 ft. Price, $467. Cash Discount, 5%. Net Price, $443.65. See Terms.

A big summer cottage at a small price. Note the 36-ft. porch running all the way across the front of the building.

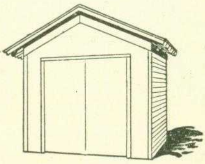


FOUR POPULAR ALADDIN GARAGES

THE FORD

Size, 8 x 14 ft. Price includes everything cut to fit, either wood or metal. Net Price, $68. No Discount.

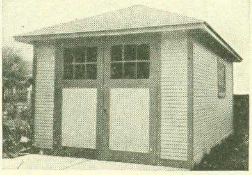
Positively the lowest-priced auto garage on the market. Doors will admit Ford or any other auto of same size with top raised. Can be built in one day by unskilled labor. All material sent cut to fit with complete instructions. Size of garage, 8 x 14 ft., rafters, 2 x 4 in., roof sheathing, ⅞ in., siding, ⅞ in., tongued and grooved, shingles or prepared roofing for roof, doors, 7 ft. 4 in. wide, 7 ft. high. Hardware, paint for two coats, any color desired.



THE WINTON

Size, 12 x 20 ft. Price complete, either wood or metal, $130. Cash Discount, 5%. Net Price, $123.50. See Terms.

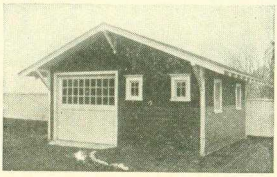
The Winton will take the largest car on the market, with ample room at sides for working about car and for supplies. It has swinging glass doors and one window on each side.



THE PEERLESS

Size, 20 x 20 ft. (two cars). Either wood or metal. Price, $246. Cash Discount, 5%. Net Price, $233.70. See Terms.

Distinctive and attractive, The Peerless will do credit to any surroundings. It is furnished with siding half-way up and shingles on upper part of wall. Very wide eaves with supporting brackets set off building excellently. Large door with glass, together with windows on two other sides, give plenty of light.

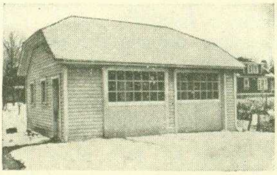


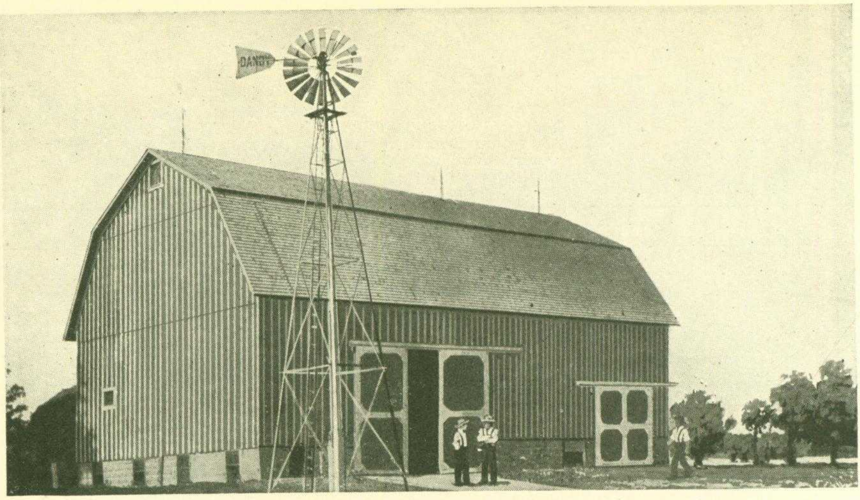
THE PACKARD

Size, 20 x 20 ft. (two cars). Either wood or metal. Price, $198. Cash Discount, 5%. Net Price, $188.10. See Terms.

Size, 30 x 24 ft. (three cars). With double sliding doors, either wood or metal. Price, $367. Cash Discount, 5%. Net Price, $348.65. See Terms.

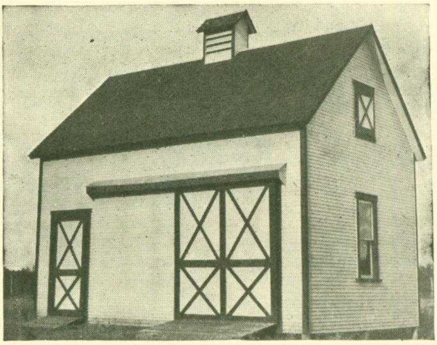
The broken roof lines of The Packard give it an individuality immediately apparent. The building is furnished with five windows, large glass door, and glazed small door.





GAMBREL ROOF BARN

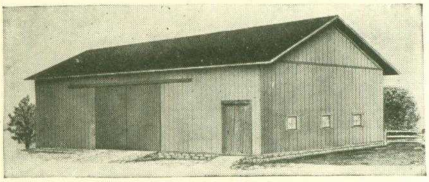
THREE types of barns are here shown. In every case the construction of the barns and material is identical, the only difference being in size and designs. These barns have given the highest satisfaction and service on the western plains of Nebraska and Kansas, where they are subjected to the heaviest strains of wind and storms. They will stand any strains that any high-class barn can be expected to withstand. The Gambrel design has side walls 12 ft. high, and the gable roof barn has side walls 15 ft. high.



Special. Size, 16 x 24 ft. Net Price, $248.
See Terms.

BARN CATALOG

We have issued a special catalog on Farm Buildings. Send for a copy.

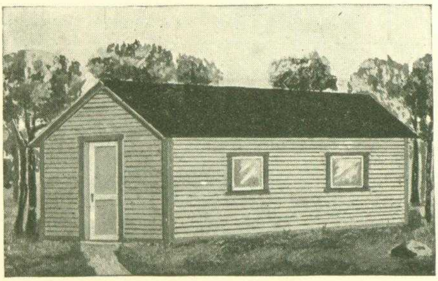


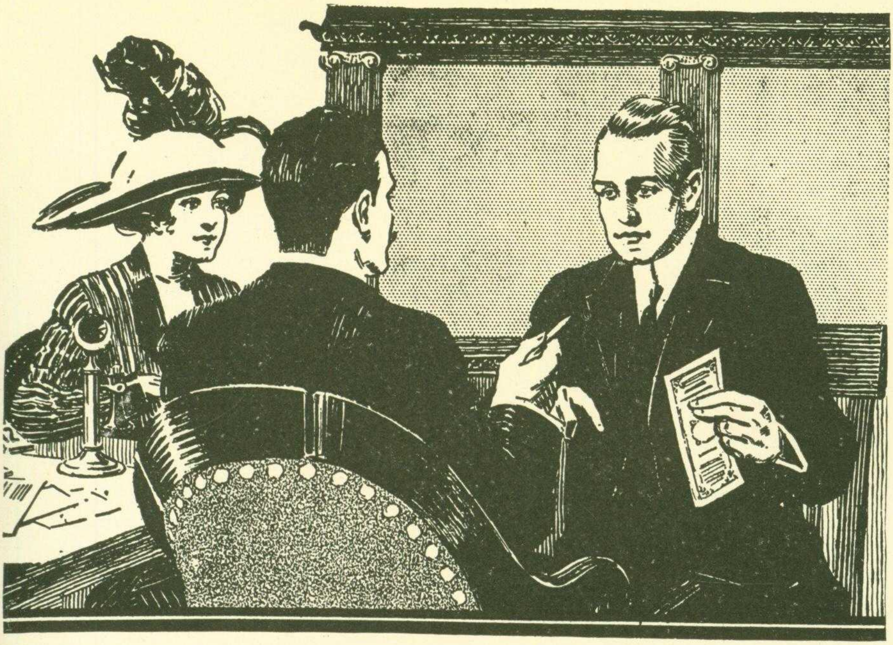
Gable Design Barn

ALADDIN HUNTER'S LODGE

This building is designed for settler's house or hunter's lodge. It is built just like other houses, strong and substantial. One door in front and four windows, two on each side. Height of side wall, 7 ft. 6 in. No plaster board with this house.

Size, 12 x 16 ft. Price, $104. Cash Discount, 5%.
Net Price, $98.80. See Terms.





"COME, LET US REASON TOGETHER"

The Aladdin plan has appealed to you strongly — there can be no doubt about that fact.

It is altogether likely that you are enthusiastic about it.

You will probably talk to your friends about it and tell them how good it looks — tell them of the many advantages of the plan.

In talking to a friend, or asking advice from a lumberman, contractor, or architect, we suggest two things:

First: Write down each question asked of you, and which either you cannot answer, or this catalog does not answer. Make a note of any objection that may be raised to the plan, the system of construction, or the material. Pass those questions on to us. We are eager for a chance to answer them.

Second: You will find people who will be antagonistic to our plan — to us. Look for the motive behind the antagonism — you will find it. The motive in each case will be self-interest.

If a merchant, perhaps the mail-order business under-sells him and he doesn't like it. If a contractor, he sees a possible contract lost; if a banker, he may be personally interested in a local lumber yard — you will find a motive every time.

But listen to them, make notes of their arguments, hear what they have to say, we will be only too glad to answer all questions.

In talking with others about Aladdin houses it is always better to show the catalog at the same time. Few people really understand the wonderful facts about Aladdin houses until they really see the catalog, see the high-class houses it contains and read the descriptions.

Perhaps you haven't thought of the exact similarity between the Aladdin system of construction and the modern skyscraper system of construction. They are identical.

All the steel frame work for those immense office buildings is cut to fit in the steel mills, beams fashioned, holes drilled, marked, and numbered and assembled, erected and riveted together on the job.

Will any one say that the steel building is not practical, is not a success?

And yet how much simpler is the construction of the ordinary frame house.

The Aladdin system is simply exact science applied to house building.

Scientific design to eliminate wasteful lengths of material being necessary to build the house.

Scientific cutting of lumber to utilize every inch in the log.

Scientific salesmanship, to eliminate unnecessary profits — to useless middlemen.

Science seeks to find the shortest route between two points — cause and effect.

Scientific business management seeks to find the lowest cost between raw material and the consumer.

The Aladdin plan has achieved this.

KIND WORDS FROM ALADDIN OWNERS

We have permission of the following Aladdin owners to give their names and addresses along with their letters. Read what they say about money saved and satisfactory goods. One of them may own the style of house you are planning to build.

AN ALADDIN BABY

"Mechanicsville, Iowa,
June 5, 1913

North American Construction Co.
Bay City, Mich.

"*Dear Sirs*,—I enclose picture of my wife and baby girl, Maxim, born February 6, 1913, in an Aladdin house, Kentucky No. 2. We moved in in January, 1913. Picture was taken in front bed room when she was seven weeks old."

Chas. H. Stoffel

"I find your house the easiest house to erect I ever saw. I never had the least bit of trouble with any part of it in any shape or form; every piece fit just like paper on the wall, and I think your method of cutting material the very best that could be got up, and I think that any man who knew his letters could erect any house in your list as fast as he could drive nails. Yes, sir, I like my house just fine, and I think it a great money-saving thing."

H. A. Hixson,
Iowa Point, Kan.

"The house is all you claim it to be. I saved $390."

John Collins,
Denver, Iowa.

"I had a nice porch built on rear, as I had plenty of lumber and nails left over from material you sent me for my 'Hamilton' house. I saved about $800."

Geo. L. Knox,
42 Commonwealth,
Middletown, N. Y.

"Everything went together fine. Our 'Standard' is a fine house,"

E. D. Glaspie,
Box 52, Oxford, Mich.

Mr. Glaspie has since erected our "Finley" and two "Portlands."

"I saved $300 on my 'Detroit' bungalow."

A. H. Norwood,
103 Elm Street,
S. Brewer, Me.

"We furnished our 'Kentucky No. 2' last fall, but it was too late in the season to paint the outside, which we have finished this spring. We are very well pleased with our home and spent a comfortable winter. Our belief is that plaster board is much warmer than plaster. Our water pipes never froze, while around nearly all the water pipes were frozen."

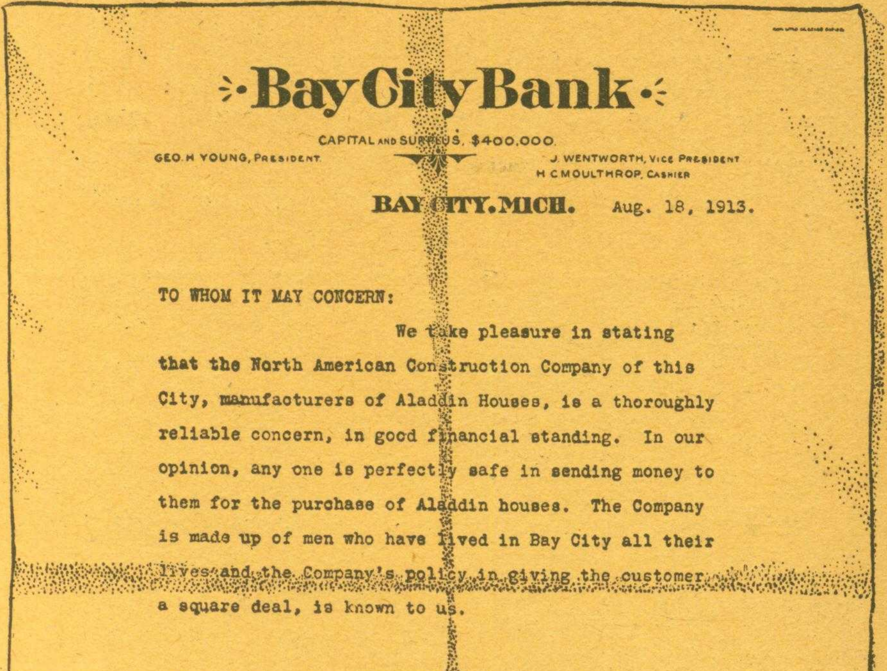
Mrs. W. J. Moore,
1637 Sherwood Street,
Missoula, Mont.

"I will do all I can to recommend your houses, for 'The Portland' you sent me is all right. The lumber was first-class and there was plenty of everything, the lumber and nails overrunning."

W. C. Colt,
Route 28,
Gilroy, Cal.

"Our 'Newport' looks handsome and should be a good ad. for you, as it has one of the finest locations in town. We are planting wild cucumber and nasturtiums and will send photo later. Every one comments favorably on the fine appearance. We are thoroughly pleased with the deal."

Mrs. H. H. Thurston,
Rockport, Mass.



Bay City Bank

CAPITAL AND SURPLUS, $400,000.
